## Finance > Reports > Finance Reports > Vendor/Purchase Order Reports > FIN2100 - 1099 Forms

Per IRS requirements, updated the 1099-MISC/1099-NEC forms/instructions and all 1099-MISC/1099-NEC functionality to support the 2024 tax year.

- The IRS has permanently removed Copy-C (Payer's Record) from the 1099-NEC and 1099-MISC forms. As a result, the **C** option was removed from the FIN2100 - 1099 Forms report parameter **Print 1099 Form only (1), 1099 form including 1099 file (2), Non-preprinted Copy B and C (3)**. Note that when generating the FIN2100 report with option 3 (Copy B), each page displays two Copy B forms, with each form representing a separate vendor.
- In addition, FIN2100 report messages were updated to reflect the electronic threshold reduction: Per IRS, Treasury Decision (TD) 9972 amends the rules for filing returns and other documents electronically (e-file). These regulations reduce the 250-return threshold to generally require electronic filing by filers of 10 or more returns in a calendar year beginning in 2024, tax year 2023.

**Release Date:** 11/11/24 **ASCENDER Update:** 9.0305

### Payroll > Maintenance > Approve CIP Transaction

Corrected the issue that caused the following SQL error to occur when trying to approve CIP transactions: *SQL Anywhere Error 274: Procedure or trigger calls have nested too deeply.*

### Personnel > Maintenance > TSDS Days Employed Set

Added a new page to keep a record of the number of days an employee has been employed for TSDS reporting purposes and manage begin/end dates if corrections are necessary. Each record displays the percent of day employed, the TSDS number of days employed, the begin and end dates, a date timestamp indicating when the record was created, and the module within the system where the update originated.

Percent Day Employed	TSDS # Days Employed	Begin Date	End Date	Update DTS	Module
No Rows

## Payroll > Maintenance > Approve CIP Transaction

Modified Personnel extracts to properly report TSDS data. The Change in Position (CIP) process will now evaluate whether TSDS number of days employed records need to be updated with an end date or inserted with begin dates.

This fix also corrects the previously known issue in 9.0200. When a CIP was approved, the system was erroneously doubling the **Percent Day Employed** value.

---

## Personnel > Maintenance > Employment Info

Modified the calculation for the **Pct Day Employed Effective Date** field. The previous calculation, End Date = Effective Date - 1, has been replaced with End Date = Effective Date. This aligns the End Date with the Effective Date .

---

## Personnel > Utilities > Mass Delete

Modified the program to include the TSDS days employed in the mass deletion process.

[Business Known Issues](#)

## TSDS Extracts

The Business Fall extracts (Budget and Payroll) were modified to run in alignment with the TSDS schedule. Extracts will now run from the beginning of the fiscal year until the day after accounting period 10 closes. As a result the following changes were implemented:

- Added the **Extract TSDS** column to the Business Finance Options database table. Values are:
- 0 - Do not extract when the general ledger file ID = C and the current accounting period is greater than 10 or less than the starting accounting period.
  - 1 - (Default for new year) - Extract when the general ledger file ID = C and the current

accounting period is less than 10 and greater than the starting accounting period.

- 2 - Extract when the general ledger file ID = C and the current accounting period = 11.
- 3 - Last extract (one day after period 10 is closed)
- 4 - Last report (two days after period 10 is closed)

The **Extract TSDS** column status is updated when the following processes are run:

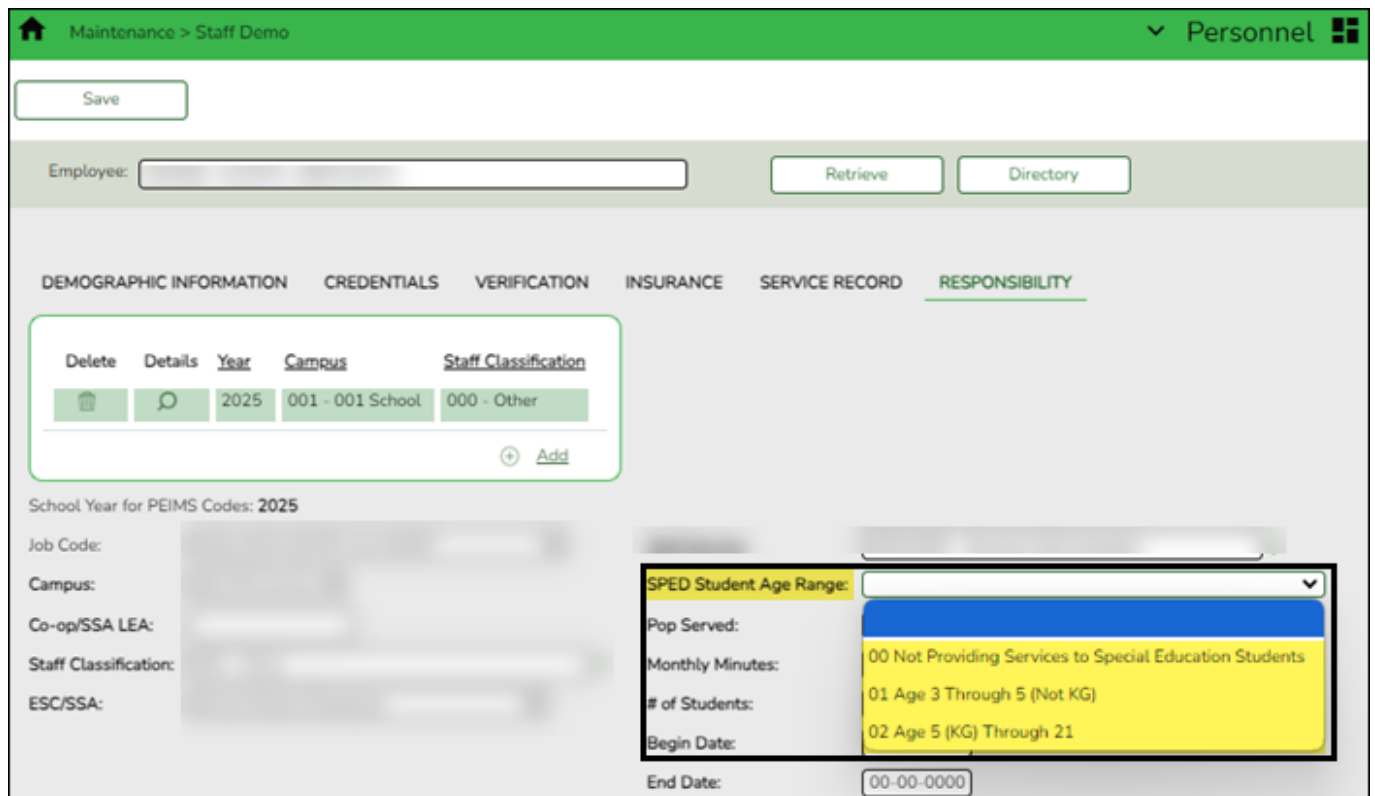

- **Finance > Utilities > Move Current to New File ID**
- **Finance > Utilities > End of Month Closing** - A message is displayed indicating that Accounting Period 10 has been closed and the TSDS Budget and Payroll extracts will be paused until the Fiscal Year Close process is done.
- **Finance > Utilities > Fiscal Year Close**

Modified the nightly stored procedure in District Administration to include and update the TSDS number of days employed, which includes either updating existing records with end dates or inserting new records with begin dates.

## Personnel > Maintenance > Staff Demo > Responsibility

Per TSDS requirements, the following changes were made to the tab:

- Removed the **Grade Level** column and field.
- Added the **SPED Student Age Range** field to select the code indicating the age range of Special Education students supported by the teacher or paraprofessional staff member. This data will also be included in the Personnel > Utilities > Mass Update > Responsibility process.

## Personnel > Maintenance > Employment Info

☐ Added the **Pct Day Employed Effective Date** field to the **Employment Dates** section. This field only applies to employees with an **Employee Status** of 1, 2, 3, 4, 5, or A, and is only enabled when the **Percent Day Employed** is changed. If the **Percent Day Employed** is changed, the **Pct Day Employed Effective Date** is required.
