## Finance > Utilities > IRIS > Connection

Added this tab to enter the assigned IRS credentials to create a connection from ASCENDER to the Information Returns Intake System (IRIS) system via the Application to Application (A2A) method when processing 1099-NEC and 1099-MISC information returns.

### Notes:

- An IRIS Transmitter Control Code (TCC) is required before electronically filing through IRIS. The IRIS TCC is **not** the same as the FIRE TCC.
- The existing Filing Information Returns Electronically (FIRE) format is still available for 2025 processing; however, according to IRS, the targeted date for the retirement of the FIRE system is tax year 2026/filing season 2027.

**Payroll > Payroll Processing > Run Payroll**

Added the Bank Account Change report to the list of **Calculation Reports** to compare employee bank account information from the current payroll to the previous payroll. It provides a detailed listing of employees with bank account changes and specifies the type of change. The report assists in fraud prevention efforts by allowing users to identify, review, and verify bank account changes, helping to ensure all changes were authorized and processed by payroll staff.

This report was also added to the Payroll Reports menu: Payroll > Reports > Payroll Reports > HRS2450 - Bank Account Change.
