Human Resources

Update 3.5.0169

Human Resources

Human Resources > Maintenance > Staff Job/Pay Data > Pay Info

❑ Corrected the issue that caused a W-4 Marital Status code validation error to occur when trying to add W-4 information for a new employee.

Human Resources > Payroll Processing > Special Adjustments > Percent

❑ Corrected the issue that caused an error to occur when trying to process a Special Adjustment.

EmployeePortal

❑ Corrected the issue that prevented news users from being created in some databases.

EmployeePortal > Forgot Password

❑ Corrected the issue that prevented the Forgot Password functionality from reading the email server information for each database.
