Human Resources

Update 3.5.0169

TxEIS

- Removed the **What's HOT in TxEIS** button from the Login Page as the newsletter is obsolete.

Human Resources

Human Resources > Maintenance > Staff Job/Pay Data > Pay Info

- Corrected the issue that caused a W-4 Marital Status code validation error to occur when trying to add W-4 information for a new employee.

Human Resources > Payroll Processing > Special Adjustments > Percent

- Corrected the issue that caused an error to occur when trying to process a Special Adjustment.

EmployeePortal

- Corrected the issue that prevented news users from being created in some databases.

EmployeePortal > Forgot Password

- Corrected the issue that prevented the Forgot Password functionality from reading the email server information for each database.
