Accounts Receivable

Update 3.5.0174

❏ Removed the **What's HOT in TxEIS** button from the Login Page as the newsletter is obsolete.

Accounts Receivable

Accounts Receivable > Maintenance > Credit Memo

❏ Modified the program to correctly handle credit memos when the accounting period is the same as the next accounting period in Finance. Previously, when trying to apply a credit memo to an invoice, a credit memo error was displayed and an out-of-balance condition occurred in Finance. Now, the credit memo is correctly applied to the invoice and an overpayment is created if the credit memo caused a negative balance.

Accounts Receivable > Reports > Accounts Receivable Reports > BAR7500 - Reprint Invoices Report

❏ Modified the program to allow prior year account codes to be printed even if they do not exist in the current year Finance chart of accounts.

Human Resources

Human Resources > Utilities > Mass Update > Salary Calculation

❏ Corrected the issue that prevented the daily rate and accrual rate from being updated when performing salary calculations using the local annual concept.
