

## **Grants and Projects**

---

Update 3.5.0XXX

# Finance

## Finance > Maintenance > Fiscal Year Close

☐ Corrected the issue that allowed a single fund with multiple years separated between pages to be incremented instead of being defaulted to only allow the fund to be continued. For example, if fund 616/8 was listed on one page and 616/9 was listed on the next page, the **Increment** option should not be available for 616/8.
