

ASCENDER 6.1200

Release Date: ASCENDER Update: 6.1200

Accounts Receivable > Maintenance > Create/Modify Invoice

☐ Added validation to allow all valid accounts (except 4XXX accounts) in Finance file ID C to be displayed in the **Account Code** drop-down. As a result, removed the validation restricting the drop-down to only 5XXX and 7XXX accounts.

Note: These changes are also effective on the Accounts Receivable > Maintenance > Invoice Voids/Adjustments, Create/Modify Template, and Credit Memo pages.
