# ASCENDER 7.0100

**Release Date: ASCENDER Update: 7.0100**

☐ Per the 2022 National Automated Clearing House Association (Nacha) Operating Rules & Guidelines, modified the program to store an encrypted version of bank account and employer offset account values in the database. ## Accounts Receivable > Maintenance > Create/Modify Invoice

☐ Added validation to allow all valid accounts (except 4XXX accounts) in Finance file ID C to be displayed in the **Account Code** drop-down. As a result, removed the validation restricting the drop-down to only 5XXX and 7XXX accounts.

**Note:** These changes are also effective on the Accounts Receivable > Maintenance > Invoice Voids/Adjustments, Create/Modify Template, and Credit Memo pages.

---

Modified the program to default the account codes using the new account code fields on the District Administration > Maintenance > User Profiles > Permissions page. If the District Administration fields are blank, then the **Offset Obj** and **Offset Subj** fields default to the values in the **Accounts Receivable** field on the Finance > Tables > District Finance Options > Clearing Fund Maintenance tab and the **Offset Org** field is set to 000.

---

### **Accounts Receivable > Maintenance > Invoice Payments > Payments**

Corrected the **Date Range** parameter to use the invoice date instead of the entry date when retrieving invoices.

---

### **Accounts Receivable > Maintenance > Credit Memo**

Corrected the program to allow invoices to be posted to any valid object codes (except 4XXX) in Finance file ID C. Previously, an offset account code error message was displayed when trying to post a credit memo to a template invoice.

---

### **Accounts Receivable > Utilities > Import Invoices**

Added the following fields to the import as they are also included on the Accounts Receivable > Maintenance > Create/Modify Invoice page.

- **Reference**
  - **Due Date**

  - **Unit of Issue**

-

---

### **Finance > Maintenance > Postings > Check Processing - PA and - PO**

Modified the program to allow prior year invoices to be processed regardless of the year in which they originated. Previously, an error message was displayed.

## Finance > Tables > TSDS Crosswalks
