We have removed the button and welcome your feedback through your local ESC ASCENDER support team.”

Budget > Utilities > Clear Move NYR Requisitions To CYR

☐ Corrected the issue that caused account elements for the encumbrance offset (4310) to duplicate the subobject and organization resulting in an account code longer than 20 characters and preventing the process from being completed.

Finance > Maintenance > Pending Payables

☐ Corrected the program to prevent purchase orders with more than one line item and the same account for all line items from being fully liquidated when only partially received.

Also, corrected the program to properly calculate the Net Expense Amount based on the Actual Cost Amount when the PO has one item split between three or more accounts.

Finance > Inquiry > Travel Reimbursement Inquiry

☐ Modified the program to display the **Documents** button in the travel details pop-up window if documents are attached to the travel request.

Finance > Utilities > Fiscal Year Close

- ☐ Corrected the program to generate the final Fiscal Year Close report instead of a program error.
- ☐ Corrected the issue that prevented the **Current Finance Fiscal Year** and **Previous Year File ID** fields from being properly updated after successfully running the Fiscal Year Close process.

Finance > Reports > Finance Reports > Summary/Miscellaneous Reports > FIN3750 - Statement of Activities

- ☐ Corrected the issue that prevented all fund balance objects (excluding 37XX) from being included in the **Net Assets, beginning of year** line.

Grants and Projects > Maintenance > Approval Dashboard

- ☐ Corrected the issue that prevented the request details from being displayed in the spyglass pop-up window. Previously, only the **Approve** and **Cancel** buttons were displayed in the pop-up and if the user clicked either button, a program error occurred.

Payroll > Tables > District EP Options > EmployeePortal Options

- ☐ Added the **Disable Temporary Approvers in EP** field to disable the Temporary Approver functionality. After the record is saved, all current temporary approvers are deleted and the Set Temporary Approvers menu is hidden from the Supervisors menu in EmployeePortal.

☐ Modified the program to display a message prompting users to update W-4 Info/FSP Staff Salary Data changes in the current year or next year pay frequency based on the logged-on pay frequency where the changes are being saved. This message is displayed when changes are made to the **Tax Exempt**, **W-4 Withholding Certificate**, or **FSP Staff Salary Data** fields.

The image contains two screenshots of a software interface. Each screenshot shows a confirmation dialog box with a green circular icon containing a lowercase 'i' on the left. The text in the dialog boxes is: "Would you like to update W-4 Info/FSP Staff Salary Data on Pay Info tab in [Year]?" where [Year] is highlighted in yellow. The first screenshot shows "Current Year?" and the second shows "Next Year?". Both dialog boxes have two buttons: "Yes" and "No".

Payroll > Maintenance > Leave Account Transaction > Staff Leave Maint

☐ Added validation to the **Absence/Earned** date field to prevent invalid dates or dates prior to 01/01/2000 from being entered.

Payroll > Payroll Processing > TRS Processing > Extract

☐ Corrected the issue that caused the following erroneous error to be displayed on the Error Report: "Error inserting errs 3."

Payroll > Self-Service > Payroll Approval & Payroll Approval by Alternate

☐ Modified the program to display the following warning message if trying to approve pending W-4 changes and a Lock-in Letter has been issued for the employee (i.e., **IRS Lock-In Letter** field is selected on the Payroll > Maintenance > Staff Job/Pay Data > Pay Info tab): "W-4 changes cannot be processed because an IRS Lock-in Letter has been issued. You can disapprove the changes to remove them from the approval queue or contact an administrator for further information."

Payroll > Reports > Personnel Reports > HRS1250 - Employee Data Listing

☐ Added the **IRS Lock-in Letter** field to the report.
