

ASCENDER 7.1100

Release Date: ASCENDER Update: 7.1100

Finance

- Corrected the issue that prevented vendor EFT notification emails from being generated and emailed.

Payroll > Utilities > Transfer Transaction Processing > Mass Update/Delete

- Corrected the issue that prevented users from successfully deleting a range of transactions. Previously, the drop-down arrow was not displayed for the **To Pay Date** field and if the user entered a pay date in the field, the following error message was displayed: "Please enter valid To Pay Date in MM-dd-YYYY format."

EmployeePortal

EmployeePortal > Supervisor > Approve Leave Request

- Corrected the issue that prevented the selected employee's leave balance details from being displayed in the Leave Balance Summary pop-up window (spyglass icon).
