

ASCENDER 7.1100

Release Date: 07/10/2023 **ASCENDER Update:** 7.1100

Payroll > Utilities > Transfer Transaction Processing > Mass Update/Delete

- Corrected the issue that prevented users from successfully deleting a range of transactions. Previously, the drop-down arrow was not displayed for the **To Pay Date** field and if the user entered a pay date in the field, the following error message was displayed: "Please enter valid To Pay Date in MM-dd-YYYY format."

Finance

- Corrected the issue that prevented vendor EFT notification emails from being generated and emailed.

EmployeePortal

Login

- Corrected the issue that prevented a Supervisor from successfully logging on if one of their direct report employees (current or former) did not have a leave type assigned on the Payroll > Maintenance > Staff Job/Pay Data > Leave Balance tab.

EmployeePortal > Calendar (Supervisor)

- Corrected the supervisor calendar **All Requests** view to only display requests from direct report

employees. Also, corrected the supervisor calendar to display the correct hours and/or days for leave requests.

EmployeePortal > Supervisor > Approve Leave Request

- Corrected the issue that prevented the selected employee's leave balance details from being displayed in the Leave Balance Summary pop-up window (spyglass icon).

Back Cover
