TxEIS State Reporting Release Notes - 3.4.0150

State Reporting Release Notes

Update 3.4.0150

Program Changes

State Reporting > Extracts > Fall > Student

☐ Corrected the program to allow a student's Industrial Certifications with valid PEIMS codes to be extracted when the student's first certification is local only without a PEIMS code.

State Reporting > Maintenance > Organization > County District

☐ Added codes 053-060 and removed code 010 from **CTE Programs of Study**.

State Reporting > Utilities > TEA Census Block > Export Address

☐ Corrected the export to include students who have had a track change.

State Reporting > Utilities > Create State Reporting Interchanges

☐ Corrected the Fall Student interchange to write existing census block information for As-of-Status C students who meet all other requirements.

☐ Corrected the extract to set the special education indicator to 0 for students who withdrew from special education prior to the snapshot date, regardless of withdrawal reason.

☐ Prevented the Fall Student interchange from writing NewTechIndicator for As-of-Status A students.
