

Release Date: 10/29/20 **TxEIS/ASCENDER Update:** 3.5.0213

Corrected the issue that caused the staff interchange files from being created when an employee has multiple responsibility records that require the paraprofessional certification indicator to be reported.

State Reporting > Extracts > Fall > Student

Added functionality for school year 2020-2021 to include Post Secondary Certifications only when the **Reimburse** field is not checked. The Certifications must have been earned between 06-01-2020 and 08-31-2020.

NOTE: Any Industry Based Certifications earned from 9/1/2019-05/31/2020 that will be reported in one-time reporting extension (Fall Submission) will need to be manually entered in State Reporting > Maintenance > Fall > Student > Industry Cert. The **Certification, Date Completed, Exam Fee** and **Vendor** will also need to be entered in the appropriate year in the Graduation Plan or Registration application.

State Reporting > Utilities > Create TSDS PEIMS Interchanges

Updated the program when creating the Fall Student interchange to not report the Crisis Code if it is *00* and the **As-of Status Cd** is A.

(**Mandated Change**) Added the **TX-AdultPreviousAttendanceIndicator, TX-IBCEXAMFeeAmount** and **TX-IBCVendorCode** data elements to the Student Interchange Fall collection.

NOTE: This data will extract directly from the Student Applications and not to State Reporting.
