## Grades > Assignment Grades

Updated the program to add a gray background for **Excluded** grades.

Updated the program to properly convert **E, S, N, or U** to any order of **A, B, C, or F** based on the grade conversion table in **Grade Reporting > Maintenance > Tables > Campus Control Options > Ranges & Conversions** which corrected the system error that occurred when the teacher clicked **Retrieve**.

Previously, if you mapped **N** to **F** and **U** to **C**, an error displayed.

The screenshot shows a software interface with a 'Save' button at the top left. Below it are several tabs: 'Parameters', 'Ranges & Conversions', 'Computation', 'H Roll & Gr Avg', 'Print Options', 'Posting', and 'Parameters NYR'. The 'Parameters' tab is active, showing several input fields for grade-related settings. A red oval highlights a 'Grade Conversion Information' section containing the following options:

E:	A	S:	B	N:	C	U:	F	P:	C
A:	090	B:	080	C:	070	D:		F:	069

☐ Updated the program to display fields for **Pin**, **Save** and **Calculate Averages** at the top and bottom of the page.

The screenshot shows a report card interface. At the top, there is a 'PIN:' input field followed by 'Save' and 'Calculate Averages' buttons, all enclosed in a red oval. Below this is a table with the following data:

Student ID	Student Name	Cycle Average
502881	T  MONROE, COLTON W	
<b>Overall Averages:</b>		

At the bottom of the page, there is another 'PIN:' input field followed by 'Save' and 'Calculate Averages' buttons, also enclosed in a red oval.
