Updated the page for sy 2026 and beyond so users are able to add multiple rows of data.

Registration > Maintenance > Student Enrollment > Bil/ESL

Updated the program for sy 2026 and beyond to remove the error message, *Bil/ESL: When Parental Permission Code is E or J then ESL and Bil Program Type must be 0* as the rule no longer exists.

Registration > Utilities > At Risk Indicators

Updated the utility to add the following PEIMS at-risk criteria options:

16. Chronically Absent (TEC 48.009) - Is a chronically absent student, as defined by TEC, §48.009; SB 991 amends TEC §29.081(d) by adding chronic absenteeism as defined by TEC §48.009 to the list of reasons a student could be considered at risk of dropping out of school.

17. 10+ Unexcused Abs/6mo (TEC 25.085/25.086) - Is required to attend school under TEC, §28.085, is not exempt under TEC, §25.086, and fails to attend school without excuse for 10 or more

days or parts of days within a six-month period in the same school year;

The utility will set the At-Risk begin date with the as-of date entered by the user.

- If the Begin date is empty, which means the student is not at risk, the utility is going to populate the at-risk data with the as-of date entered by the user.

If the student has an existing at-risk record and new criteria is triggered as of the date entered by the user:

- If the Begin date is populated and the End date is empty, the utility will set the End date and new record Begin date with the as-of date entered by the user if any of the indicators calculated by the utility have changed.
- If the Begin date and End date are populated, and the End date is on or after the as-of date entered by the user, the utility will update the existing End date and new record Begin date with the as-of date entered if any of the indicators calculated by the utility have changed.
- If the Begin date and End date are both populated, and the End date is before the as-of date entered by the user, the utility will create a new record Begin date with the as-of date entered if any of the indicators calculated by the utility have changed.

Special Education > Reports > Special Ed > Program > SEM0850 - PEIMS Verification List

- Corrected the error with the report that caused students to not be listed on the report with the **IEP Continuer** coding even though the student is coded as an **IEP Continuer** on Special Education > Maintenance > Student Sp Ed Data > Current Year > Program Information.

ASCENDER 11.0110

Release Date: 9/18/25 ASCENDER Update: 11.0110

Discipline > Maintenance > Student > Maintenance

- Modified the page to move the **SSSP Team Review** checkbox from the Discipline Incident section to the Discipline Offense section.

The screenshot shows a form for a discipline incident. At the top, there are various input fields for incident details like date, time, and location. Below these are sections for 'Parent Contacted' and 'Reported by'. The main area is a table with columns for 'Delete', 'Offense', 'Level', 'Extract', 'SSSP Team Review' (which is circled in red), 'Offense Description', and 'Multi Student Incident'. To the right of the table are buttons for 'Victim', 'Restraint', 'Print Profile', 'Picture', and 'Comments'. A large black arrow points from the original location of the 'SSSP Team Review' checkbox (in the top right of the main table area) to its new location in the 'Offense' column of the table.

Graduation Plan > Maintenance > Student > Individual Maintenance > Performance Acknowledgement

Registration > Utilities > TEA Census Block

- Corrected the issue that caused some clients to receive an error when importing the census block output file.

Registration > Utilities > TEA Census Block > Export Address

- Modified the utility so that if a user selects a single campus, only records from the selected campus generate to the export file.
- Modified the utility to include students that were active *on or before* the snapshot date.

Registration > Utilities > TEA Census Block > Import Census Block

- Updated the utility to improve performance and speed up the import process for large files.

- Modified the utility so the Census Block **Begin Date** will update to the student's actual enrollment date if the date entered is prior to the student's enrollment date.
