ASCENDER ParentPortal

Update 4.0.1.86 (TxEIS 3.5.0170)

ASCENDER ParentPortal (Active Campus)

☐ Corrected the program to associate a student with his most current campus if that student has changed campuses.

ASCENDER ParentPortal > Student Data Maintenance (Contacts Form)

☐ Added the **Add User** button allowing you to add a new contact for the student.

ASCENDER ParentPortal > Summary

❑ Modified the **Class Schedule** so that the following **Instructor** information is displayed if provided by that instructor in txGradebook.

• The instructor's name is displayed as a link if the instructor's email address exists. Click the link to send an email message to the instructor.
• The note icon is displayed next to the instructor's name. Click the icon to view any additional notes provided by the instructor, such as office hours, phone number, etc.

❏ Corrected the program to display "No Due Date" when the teacher has not entered a due date for an assignment.

❏ Corrected the page to display both active and withdrawn courses when selecting to include withdrawn courses.

ASCENDER ParentPortal Admin > User Settings

❏ Corrected the issue that caused students to be listed multiple times in the search results if the student had multiple enrollment records.

❏ Corrected the program so that previous search data is no longer retrieved in the search results once the search fields are cleared.

❏ Corrected the search results so that user names are not duplicated in the search results when searching for a student using a single character from the student's name.

Update 3.5.0169

Update 3.5.0169

Registration > Maintenance > Online Registration > New Student Enrollment > Register Student

❏ Added the **Xfer Factor** field allowing you to enroll a student who would otherwise be assigned to another campus when a campus is capped. This field allows you override the cap for the current year. The list of Transfer Factor reasons is maintained on **Registration > Maintenance > District Profile > Tables > Transfer Factor CY**.

❏ Added the **Attendance Zones** section which provides a list of campuses in the student's attendance zone. If Attendance Zones are used in the district (i.e, if **Attendance Zone Edit** is selected on **Registration > Maintenance > District Profile > District Information > Attendance Zone Options**), the student's physical address will be validated against the campus Attendance Zones. If the student's physical address is not within a street segment as defined on the campus Attendance Zones page, the student cannot be enrolled.

Registration > Utilities > Attendance Zones Address Change

❏ Corrected the program to change the address for the current year only (prior years are not changed).

Release 3.5

Attendance Zones (New Feature)

GUIDE: TxEIS Registration - Enroll Students Using Attendance Zones

Registration > Maintenance > District Profile > District Information > District Maintenance > Attendance Zones Options

❑ Added the tab which allows the district to enable the use of Attendance Zones for identifying street boundaries and properly enrolling students at the correct campuses according to where they live.

Registration > Maintenance > District Profile > District Information > Attendance Zones

❏ Added the page which allows you to manually add or update street segment information for Attendance Zone boundaries, including campus assignments and bus eligibility. This data is used to verify student addresses and ensure that students are attending the appropriate schools for their area. You can update data for the current school year or next school year.

Registration > Maintenance > District Profile > District Information > Attendance Zones (Street Directory Search)

❏ Implemented the Street Directory Search pop-up window which opens when you click **Directory** from the Attendance Zones page.

From the directory, you can search for and retrieve a particular street segment.

The directory includes the **Selection Begins With** check box. If selected, the search retrieves all streets beginning with those that match the characters entered. If not selected, only matching

street names are retrieved.

Registration > Maintenance > District Profile > Tables > CY Transfer Factor
Registration > Maintenance > District Profile > Tables > NY Transfer Factor

❑ Added two tabs which allow you to create codes for various conditions where enrollment at a capped campus can be overridden. The CY tab codes apply to the current school year, and the NY tab codes apply to the upcoming school year. The **System** codes will be loaded using a SQL statement.

Registration > Maintenance > Campus Profile > Campus Information Maintenance > Control Info

❑ Added the following fields:

- **Capped To Campus**, which is used to prevent over enrolling students at a particular campus.

You can select the campus at which a student will be enrolled if the campus you are logged onto is capped. For a student to be allowed to enrolled at the capped campus, the student's entry date must be later than the **Capped Date**, and that student's Transfer Factor must be 0 (out of district). This field is only enabled if **Enable Attendance Zones** is selected on *Registration > Maintenance > District Profile > District Information > District Maintenance > Attendance Zone Options*.

• **Capped Date**, which allows you to enter the date after which students can be enrolled at the capped campus if **Capped To Campus** is used. The date must be a valid school or working date.

Registration > Utilities > Attendance Zones Change Address

❏ Added the utility which allows the district to change an Attendance Zone street address for situations such as the following:

- A street name was entered incorrectly, or the street was renamed
- A street got longer in one or both directions
- A street dropped a range of numbers (beginning or end)
- A street was renamed and the number range was re-assigned

All students whose **Physical Address** on *Registration > Maintenance > Student Enrollment > Demo1* matches the specified segment will be updated with the new address information for all school years.

Registration > Utilities > Import Campus Attendance Zones

❏ Added the utility which allows the district to import campus attendance zones data from a .csv or .txt file provided by the post office, government or tax entity, or any other entity that contains the street information. See online Help for the file layout.

Attendance > Reports > Attendance Reports > Membership > SAT5500 - Attendance Zones Street Detail Report

❏ Added the report which lists all street segments included in the Attendance Zones, including the current year and next year campuses. You must specify a range of street names.

Registration > Reports > Registration Reports > Student > SRG2600 - Attendance Zones Invalid Addresses

❑ Added the report which provides a list of invalid addresses for districts using Attendance Zones, which can be used to correct Attendance Zone information. The report matches the student's Physical Address on Demo1 against the Attendance Zones addresses.

If the student's address if found, the student is not listed.

If the student's address is not found, the student is listed, along with the valid Attendance Zone campuses for that address.

Attendance > Reports > Create User Report

❑ Corrected the issue that prevented the report from being generated when the **Yearly Count - Percent** field was selected, and at least one student had zero membership days and absences in the

previous year.

Grade Reporting

Grade Reporting > Utilities > Online STAAR/TAKS EOC Extract

❏ Added options X (large print - paper) and Y (oral admin - paper) to the extract for STAAR Accommodations for the 2019-2020 school year and later.

If either code is used for a test, the test mode will be P for Paper (AO). Codes X and Y cannot be used on conjunction with any other accommodations for a subject; they can only be used with each other.

Grade Reporting > Utilities > STAAR/TAKS Precoding Extract

❏ Updated the precode extract file as follows:

• Added accommodation codes X and Y to columns AW, BD, BE, BF, BG, and BI (not applicable to TELPAS or TELPAS Alternate) (Code X only applies to STAAR Alternate 2).
• Added columns CC and CD to header (empty).
• For STAAR 3-8, updated the header.
• In column U, inserted 0 in place of LEP code 5 (not applicable to TELPAS or TELPAS Alternate).

Grade Reporting > Utilities > ParentPortal Report Cards

❏ Modified the program to prevent you from creating report cards unless the **School Type** field is set for the campus on *Registration > Maintenance > Campus Profile > Campus Information Maintenance > Control Info*.

Health

Health > Maintenance > Nurse's Daily Log > New

- **Elig Code** (Demo1 or W/R Enroll) is 1-3, 6, or 7, and
- **Homeless Status Cd** (Demo3) is 0, and
- **Attribution Cd** (Demo1 or W/R Enroll) is not 21 or 23
- **Physical Address** (Demo 1)

The message is only displayed if census block data existed for the student, and the criteria is changed so that the student no longer meets the criteria requiring census block.

The census block data will be cleared for the student on **State Reporting > Maintenance > Fall > Student > Demo**.
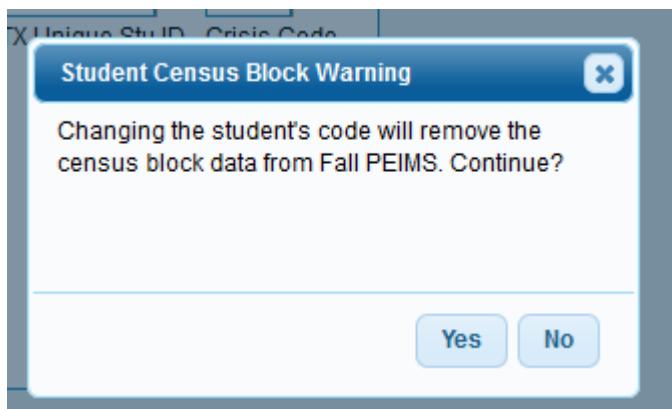

Registration > Maintenance > Student Enrollment > Demo1

❏ Added validation to prevent entry of a **Texas Unique Stu ID** that is already assigned to another student.

Registration > Maintenance > Student Enrollment > W/R Enroll
