# ASCENDER TeacherPortal

Update 4.2.X.X

## Campus

Corrected the issue that prevented teachers who teach at multiple campuses from switching views between assigned campuses.

## Grades > Assignment Grades

Corrected the issue that prevented the assigned category colors (Settings > Manage Categories) from being displayed.

Corrected the issue that prevented you from re-entering a new grade after you previously entered and deleted the grade.

## Reports > Cycle Grade Range

Corrected the program to allow a maximum grade of 100. Previously, an error occurred.

## Settings > Manage Categories

(**Help only change**) Changed information in the **Category Names** description. Previously, it read "Category names are not case-sensitive (e.g., if "quiz" already appears in the list, you can add "Quiz")." Now, it reads, "Category names are case-insensitive (e.g., if "quiz" already appears in the list, you cannot add "Quiz")."

## Settings > Manage Categories

Corrected the program to accurately delete the selected categories, and allow multiple selected

categories to be deleted at the same time.

## **Settings > Arrange Student Order**

Corrected the functionality to shift the order of the student positions up or down in the list instead of swapping them.
