ASCENDER TeacherPortal

ASCENDER TeacherPortal

Release Date: 9/20/20 **TxEIS/ASCENDER Update:** 3.5.0201 **TeacherPortal Update:** 4.0.4.XX

Attendance > Post/View Attendance

- Modified the program to leave attendance codes that were pre-posted from TxEIS unchanged when attendance is posted for other students in the teacher's course. Pre-posted codes cannot currently be changed in ASCENDER TeacherPortal.
- Updated the program to allow you to enter attendance in each period of a multi-period course.

Grades > Assignment Grades

- Added an alert pop-up window to the screen when grades have been entered and you try to navigate away from the page.
- Updated the program to move the **PIN** field, **Save** button, and **Calc Average** button above the grade grid, which was made longer so less scrolling is required.
- Updated the program to move the **Category** and **Assignment** drop-down fields to the right side of the screen (after the **Retrieve** button).
- Updated the program to display the **Invalid grade(s) found** error message to above the grade grid.
- Corrected the program to properly display the **Skill Set** and **Skill** drop-down field when the course selected is skills-based.

- Corrected the program to allow you to print the selected IPRs and then return to the page without errors.

Grades > Elementary Report Cards > Manage Elementary Skills-Based Report Cards > Admin - Set Up Elementary Skills-Based Report Cards - Step 2

Corrected the program to properly save the **Ord** and **Sem#C#** selections under **Selected Skills**. Previously, when setting up a PK Report Card, the selections were saved successfully but then cleared after clicking the **Retrieve Setup** button.
