Summary

- Corrected the issue of parents receiving alerts via email but not being able to access the alerts upon logging on to the portal. Also, corrected the number of alerts being displayed when multiple students are linked.
- Added the **Skills Based Report Card** button allowing parents to view elementary skills-based report cards published from TeacherPortal.

ASCENDER TeacherPortal

Release Date: TxEIS/ASCENDER Update: TeacherPortal Update:

Grades > Assignment Grades

- Corrected the note icon to properly open and highlight/unhighlight when data is entered, modified, or deleted. Also, removed the Unsaved Data Warning message from the note icon as the data is automatically saved to the database without entering a PIN.

Corrected the program to properly round cycle grade averages up or down to whole numbers according to the decimal value.

Reports > Attendance Verification

Corrected the program to properly display student names (Last name, First name) on the report. Previously, if a student did not have a Middle name listed in TxEIS, their last name was duplicated (Last name, Last name).

Reports > Class Roster > Class Roster Report Selection

Corrected the issue that caused the message "*NO COURSES EXIST*" to display in the **Course-Section** drop down even though courses did exist. This fix also corrected the message "*Period: No valid periods*" in the **Period** drop down on the Attendance > Post/View Attendance page.

Discipline

Corrected the issue that allowed some Discipline users to access options beyond their permission level.

Settings > Manage Categories

Corrected the issue of dropped grade settings being inadvertently carried over when you first accessed the Grades > Assignment Grades page, and then navigated to this page and retrieved a course.

Settings > Manage Seating Charts

- Corrected the program to properly generate and print the most current version of the seating chart.
- Updated the program to change the **Due Date** field to **Date**.
- Updated the program to warn that there is unsaved data on the page when navigating away without clicking **Save Seating Chart**.

Admin > Admin - Discipline Referrals

Corrected the program to properly retrieve the Student Information page.
