- Corrected the program so that when grades or other information is posted and **Calculate Semester Averages** is clicked, information displays properly and the grades in **Working Final Grade** calculates properly.

- Modified **Calculate Semester Averages** to use the same campus options to determine exam grade calculations, regardless of the course credit level, when middle school students take high school credit level courses. Previously, the exam was not included when calculating semester averages for high school level courses taken by middle school students.
