Reports > Assignment Grades

❑ Corrected the program so an error is not received when running a report for a course section that has more than six categories and less than six assignments.

Reports > Class Roster

❑ Corrected the program when running the Class Roster report where the first course selected in the drop down generates correctly, but subsequent courses selected do not. Correct students and correct courses should generate based on the Course-Section selection. Additionally, a red error message will now appear on the report page if no students are enrolled in the selected course section.
