Attendance > Maintenance > Addtnl Days Program > ADSY Attendance

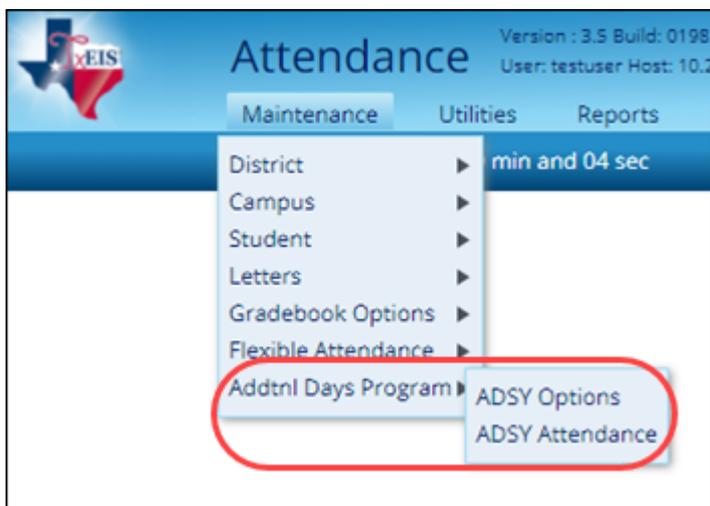

Modified the program to add the **ADSY Attendance** screen.

The screenshot shows the ADSY Attendance screen. At the top, there are buttons for "Save", "Reset", and "Print Last Save". Below these is a search bar with "Date: 01-11-2021" and "Generic Program: ADP Additional Days Program", with a "Retrieve" button. A "Code:" field is present with a dropdown arrow, and a red arrow points to it. Below the code field is a table titled "Track 03" with columns: Select, Student_ID, Name, Grade, and Schedule. The table contains 6 rows of student data. The first row is selected. At the bottom, there is a pagination bar showing "1: ADKINS - CANTU / 1".

Select	Student_ID	Name	Grade	Schedule
<input checked="" type="checkbox"/>	383507	ADKINS, EZRA A	02

Reports > Attendance Verification

Corrected the program to properly display all course periods with the correct course number in the **Course-Section** drop-down menu and to accurately generate the report with the correct students and period number.

Corrected the program so that when colors are designated for a category on *Settings > Manage Categories*, they automatically display correctly on *Grades > Cycle Grades* and *Grades > Assignment Grades*. Additionally, newly added assignments with no date will display at the end of the column list.

Corrected an issue where some districts received an error message, *Percent weights must add up to 100%*, even when the % **Weight** equals 100%.

NOTE: Do not create/save Categories with **Weighting Type** *Point* or *Multiplier* when related Categories were previously created/saved with **Weighting Type** *Percentage*.

Settings > Manage Categories

Corrected the program where the **Weighting Type** category is switching from **Percentage** to **Points** and vice versa after assignments have been created for each category and saved.
