ASCENDER ParentPortal

ASCENDER ParentPortal

Release Date: 5/26/21
ASCENDER Update: 5.0.0211

NOTE: This fix is for **Document Attachment** but will appear in ParentPortal.

Admin > Admin Settings > District Settings > Color Customization

❏ Corrected an issue in the program when registering returning students where Document Upload functions incorrectly if the district has **Enable Color Customization** turned on. The Upload File screen does not completely open. When the user tabs down the *X* is no longer visible to close the screen.

When **Enable Color Customization** is enabled, Document Upload should fully display as it does when the theme is disabled.

Admin > Admin Settings > District Settings > Color Customization

❏ Corrected an issue in the program when registering new students where Document Upload functions incorrectly if the district has **Enable Color Customization** turned on. The Upload File screen does not completely open. When the user tabs down the *X* is no longer visible to close the screen.

When **Enable Color Customization** is enabled, Document Upload should fully display as it does when the theme is disabled.
