## ASCENDER ParentPortal

**Release Date:** 9/10/21

**ASCENDER Update:** 6.0105 **ASCENDER ParentPortal Update:** 6.0105

Corrected an issue when trying to print Standards-Based Grades IPR's that was preventing **Current Avg** from calculating on the page.

Working Average Calculations when trying to print Standards-Based Grades IPR's.

Essentially, The calculation to push the average into the SR\_GRADEBK\_SEC is not occurring until the teacher goes to the Cycle Grades Page and Clicks the Retrieve button for each section. This is not going to bring over the Standards Based Grade, but will populate the Working Cycle Average for IPR purposes.

## Grades > Assignment Grades

- Corrected an issue that caused a modified Assignments per Page number to revert back to the default setting of 5 when a teacher navigates away and returns. The page is not saving the last setting.
- Corrected an issue that was preventing the *Assignment grades saved* message from going away when making additional changes after the save. This is misleading teachers as they continue to add grades then close the page without saving.
- Corrected an issue that was causing the gridlines on the page to not display.
- Corrected an issue that was causing the header and footer to move when the user scrolls left and right. This causes the **PIN** field and **Save** button to disappear from view when there are several assignments.
- Corrected an issue when entering an assignment note that caused the Note icon to disappear if the **Late** checkbox is selected.
- Corrected an issue that was causing student information to be out of alignment on the page.
- Corrected an issue when trying to print Standards-Based Grades IPR's that was preventing **Current Avg** from calculating on the page.
