ASCENDER 6.0215

ASCENDER 6.0215

Release Date: 10/X/21 **ASCENDER Update**: 6.0215

Discipline > Maintenance > Referrals

❑ The release that went out Tuesday, October 12, 2021, included a fix for saving an incident on the **Referral Details Form**. When the user selects **Create Incident**, enters the referral information and saves, the information will save.

Please note however that while the *Save* issue is fixed, the referral information (i.e., Location of Incident, Reported By, Administered By) does not transfer to the **Maintenance** tab on Discipline > Maintenance > Student > Maintenance. The user must re-enter the referral information at this time.

❑ Re-enabled tabs in Health, Registration, and ParentPortal Registration after a temporary disabling.
