## Registration > Utilities > Cafeteria Import

Modified the utility with the following changes when importing Economic Disadvantage Codes:

- On import, modify the eco dis code as follows:  
Existing record - Update the eco dis code if the begin date is prior to the student's enrollment date
- On import, insert the begin date and eco dis code as follows:  
No existing record - Insert the eco dis code and insert begin date using the student's enrollment date.
- On import, if there is an existing record in SR\_STU\_ASSOC\_ECO\_DIS and new the import file has

a begin date after the student's enrollment date and has a different eco dis code, create a status change and insert the new eco dis code.

- Do not import if student has multiple SR\_STU\_ASSOC\_ECO\_DIS entries and the begin date in the file is prior to any of them.
- Do not import if student has an end date on SR\_STU\_ASSOC\_ECO\_DIS.

Updated the utility in order to allow updates or inserts to table SR\_STU\_ASSOC\_ECO\_DIS for element econdisadv\_cd.

The updated logic looks at a student's entry date on SR\_STU\_ASSOC\_ECO\_DIS and also SR\_STU\_ENROLL.DT\_ENTRY date.

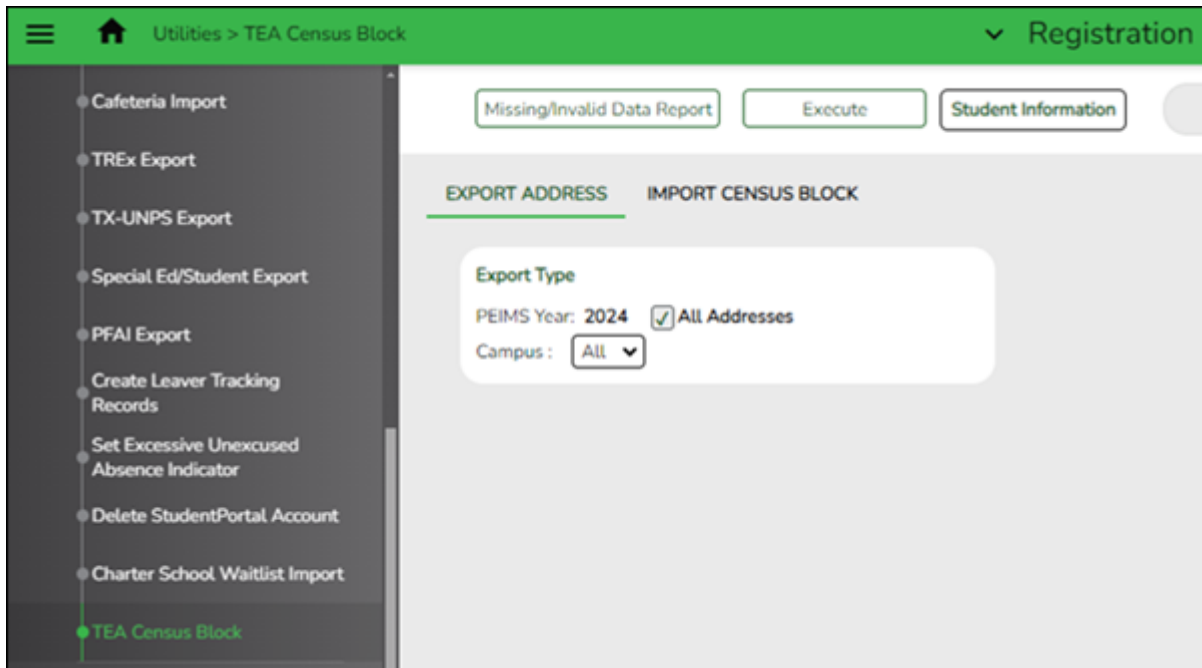

## Registration > Maintenance > Prior Year Leaver Tracking > Leaver Tracking

Corrected the error that caused the PriorYearLeavers API to populate the Student ID field with the wrong value.

## Registration > Utilities > TEA Census Block

### Registration > Maintenance > Student Enrollment > Demo2

Updated the program to move *State Reporting > Utilities > TEA Census Block* to *Registration > Utilities > TEA Census Block*.

Added the **Census Block** group box to *Registration > Maintenance > Student Enrollment > Demo2*.
