Registration > Maintenance > Prior Year Leaver Tracking > Leaver Tracking

Corrected the error that caused the PriorYearLeavers API to populate the Student ID field with the wrong value.

Registration > Utilities > Cafeteria Import

Modified the utility with the following changes when importing Economic Disadvantage Codes:

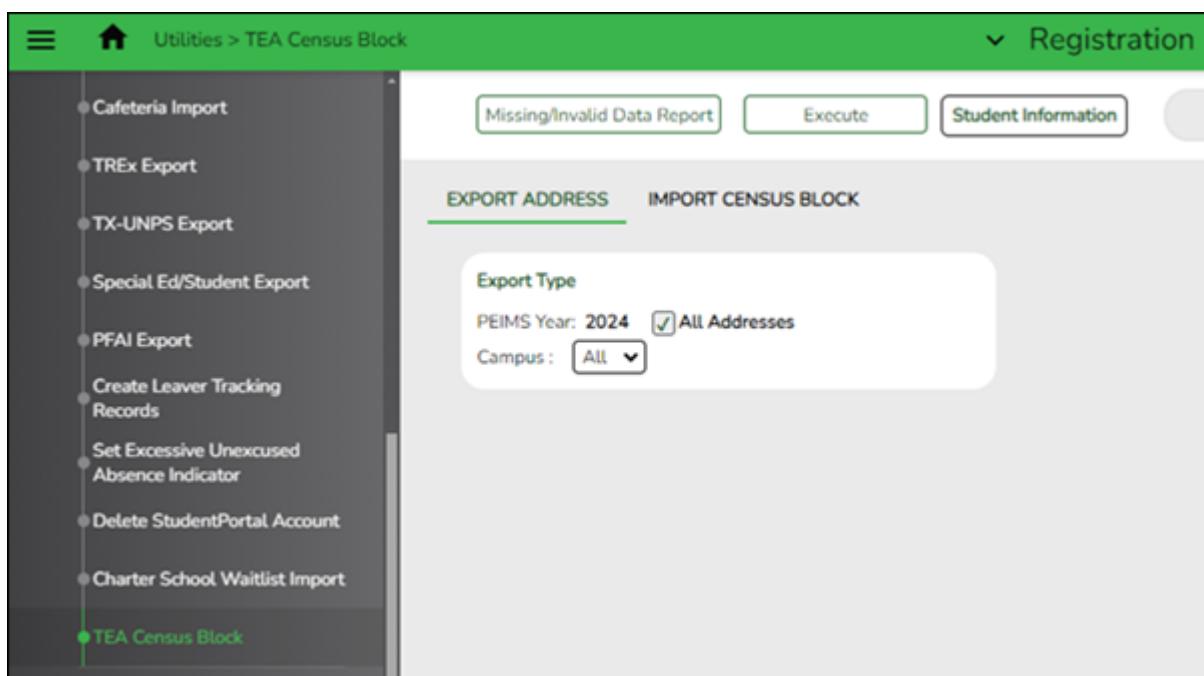

- On import, modify the eco dis code as follows:
Existing record - Update the eco dis code if the begin date is prior to the student's enrollment date
- On import, insert the begin date and eco dis code as follows:
No existing record - Insert the eco dis code and insert begin date using the student's enrollment date.
- On import, if there is an existing record in SR_STU_ASSOC_ECO_DIS and new the import file has a begin date after the student's enrollment date and has a different eco dis code, create a status change and insert the new eco dis code.
- Do not import if student has multiple SR_STU_ASSOC_ECO_DIS entries and the begin date in the file is prior to any of them.
- Do not import if student has an end date on SR_STU_ASSOC_ECO_DIS.

Updated the utility in order to allow updates or inserts to table SR_STU_ASSOC_ECO_DIS for element econdisadv_cd.
The updated logic looks at a students entry date on SR_STU_ASSOC_ECO_DIS and also SR_STU_ENROLL.DT_ENTRY date.

Registration > Utilities > TEA Census Block

Registration > Maintenance > Student Enrollment > Demo2

Updated the program to move *State Reporting > Utilities > TEA Census Block* to *Registration > Utilities > TEA Census Block*.

Added the **Census Block** group box to *Registration > Maintenance > Student Enrollment > Demo2*.
