

Assignment Grades

Table of Contents

The standards-based Assignment Grades page allows you to enter standards-based scores for students by semester, cycle, and course section throughout the cycle. For each assignment, you enter scores for all associated standards, so an assignment will often have multiple scores. The scores are converted into a standard 100%-based (i.e., regular) grade for the course.

The standards-based Assignment Grades page is displayed if you select a course section that is using standards-based grading. The page is automatically displayed instead of the regular Assignment Grades page. If you change between a standards-based course section and a category-based (i.e., regular) course section, the appropriate page loads.

Select the semester, cycle, and course section, and click **Retrieve Data**.

By default, all assignments for all students are displayed. To view a specific set of information, make one or more of the following selections:

In the **Standard** field, select a standard to view data for only one standard. Or, select *All Standards* to view all standards associated with each assignment.

If you filter by a standard, the following applies:

- If an assignment has multiple associated standards, only the selected standard is displayed under the assignment heading.
- If an assignment is not associated with the selected standard, the assignment is not displayed in the grid.

In the **Assignment** field, select the assignment for which you want to enter scores. You can select one assignment or all assignments.

In the **Due Date** field, enter a date if you want to view only assignments that are due on or after that date.

In the **Student** field, select the student for whom you want to enter scores. You can select one student or all students.

The students and assignments are displayed according to your selections.

For each assignment, the associated standards are displayed as set up on Settings > Administer Assignments. Scores are entered for each standard, so an assignment may have multiple scores.
