The Student Assignment Grades: Standards-Based page allows you to view and enter a student's scores in a particular course section for a semester-cycle.

Grades > Student Assignment Grades

You can access the page from the Grades > Assignment Grades (standards-based) page. Retrieve a standards-based course, and then click a student's name. The Student Assignment Grades: Standards-Based page is displayed allowing you to view and enter a student's data.

Semester: 1 Cycle: 1 Student: Course-Section: 01 CHEM RPT (3850-11) Retrieve

Student Assignment Grades: Standards-Based

For: Semester: 1 Cycle: 1 Course-Section: 01 CHEM RPT (3850-11) Valid Standards Score Range: 1 - 5

Standard (*Excluded)	Score	Behavior Score	PL	Avg	Behavior Grade	Mode	Override	Lab safety	Scientific notation	SL and gas assessment	Phs vs Chem change assessment	Id. Families Per.Table	States & phys/chem properties	Electronegativity/ionization
3331 CHEMISTRY														
C.02G CHEMICAL QUANTITIES	2.5		2.5	2.5		2.5		2.5	2.5					
C.04A PHYSICAL/CHEMICAL PROPERTIES AND CHANGES	2.5		2.5	2.5		2.5					2.5		2.5	
C.04C STATES OF MATTER	3.0		1.0	3.0						3.0				
C.05B PROPERTIES OF CHEMICAL FAMILIES	4.0		1.0	4.0								4.0		
C.05C PERIODIC TRENDS	2.5		2.5	2.5		2.5								2.5
C.06B QUANTUM RELATIONSHIPS	3.5		1.0	3.5										

The following data is displayed:

The student's data for the semester-cycle is displayed; however, standards and standard sets are listed if they were part of any of the student's assignment during the semester.

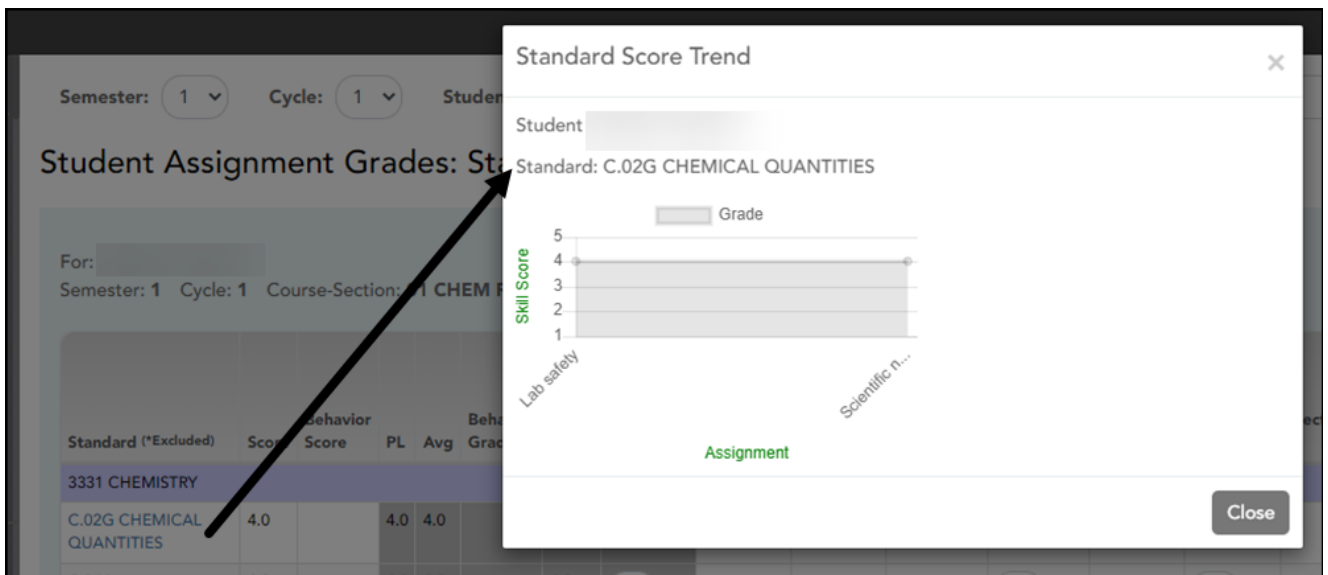

For example, a standard that was only assigned to an assignment in cycle 1 is displayed in the list for later cycles; however, the assignments and their related scores for previous cycles are not displayed.

Each assignment for the semester-cycle is displayed in a column. If a standard is assigned to the assignment during the cycle, an input field is displayed. Existing scores are displayed; otherwise, the field is blank. You can add or update the score fields.

The score must be within the range of the rubric grid, as defined by the district. You can enter whole numbers or a number with one decimal place (e.g., 3.5).

If you click a standard, the Standard Score Trend dialog box opens. This displays a line chart depicting the student's progress for the standard. The vertical line represents the rubric scores as

established by the district, and the horizontal line represents the assignments that are associated with the selected standard. The data is display only.

Click **Close** to close the dialog box.

The **Score** column displays the student's overall score for the assignment for all cycles in the semester. The score is either the higher score or the average (**Avg** column) and the power law average (**PL** column) or the override score if it exists. The override score is always displayed if it exists in any cycle in the semester.

The **PL** (power law) column displays the student's average for the assignment based on the power law formula, which is described later in this guide.

The **Avg** column displays the student's current average for the standard, which is calculated by adding scores for all assignments associated with the standard and dividing by the number of assignments.

NOTE:

The average displayed will reflect scores from all assignments associated with the standard, including previous cycles in the semester. For example, if it is currently cycle 3 of the semester and the standard was associated with assignments in cycles 2 and 3, the average will reflect scores for the entire semester, even though only cycle 3 is displayed.

The **Mode** column displays the mode if one exists. The mode is the standard score that appears most often for the semester to date. It is cumulative for the semester, not just the current cycle. There can be more than one mode.

NOTE:

- If all scores occur the same number of times, there is no mode, and the column is blank.
- If two or more scores are tied for most number of occurrences, (i.e., bi-modal or multi-modal), all will be displayed.

Examples:

- If the student's standard scores for the semester are 1, 2, 4, 2, the mode is 2.
- If the student's standard scores for the semester are 1, 1, 3, 2, 4, 2, the mode is 1,2.
- If the student's standard scores for the semester are 1, 2, 3, 4, there is no mode.

In the **Override** field, you can type an override score for the standard. If an override score is entered, it overrides the scores in the **PL** and **Avg** columns and it will always be displayed in the **Score** field.

- The override score must be within the range of the rubric grid, as defined by the district. You can enter whole numbers or a number with one decimal place (e.g., 3.5).
- If an override score was entered in a previous cycle in the semester, the score is carried over to the later cycles in the semester. However, if you enter an override score after cycle 1, it only applies to the current and later cycles for the semester.

NOTE:

If you want to dismiss an override grade for the entire semester, it must be cleared in all cycles of the semester.

For each standard set, the **Standard Set Score** row displays the average of all overall standard scores for each standard set.

- The average does not include scores of 0, unless a 0 exists in the rubric grid. It is rounded to one decimal place.

- This average is cumulative for all cycles in the semester.

The **Total Score** row at the bottom of the table displays the average of all Standard Set Scores.

The **Conversion Grade** row at the bottom of the table displays the standard 100%-based grade, which is a conversion from the **Total Score**. The conversion scale is determined by the district in the Student system.

The averages are updated every time you access the page, click **Calculate Grades**, or save the scores.

Comments and indicators can be entered for each assignment grade. For more information, view the online Help for this page.

Type a four-digit PIN and click **Save**.

To retrieve data for another semester-cycle or student, change the **Semester, Cycle, Student**, or **Course Section** fields.

To return to the standards-based Assignment Grades page, click **Back to the Assignment Grades**.
