The Student Assignment Grades: Standards-Based page allows you to view and enter a student's scores in a particular course section for a semester-cycle.

Grades > Student Assignment Grades

You can also access the page from the Grades > Assignment Grades (standards-based) page. Retrieve a standards-based course, and then click a student's name. The Student Assignment Grades: Standards-Based page is displayed allowing you to view and enter a student's data.

If you arrived at the page from the standards-based Assignment Grades page, the **Semester**, **Cycle**, **Student**, and **Course Section** fields are set to the values entered on the previous page. Otherwise, select the semester, cycle, student, and course section, and click **Retrieve Data**.

Only standards-based courses are listed.

The following data is displayed:

The student's data for the semester-cycle is displayed; however, standards and standard sets are listed if they were part of any of the student's assignment during the semester.

For example, a standard that was only assigned to an assignment is cycle 1 is displayed in the list for later cycles; however, the assignments and their related scores for previous cycles are not displayed.

Each assignment for the semester-cycle is displayed in a column. If a standard is assigned to the assignment during the cycle, an input field is displayed. Existing scores are displayed; otherwise, the field is blank. You can add or update the score fields.

The score must be within the range of the rubric grid, as defined by the district. You can enter whole numbers or a number with one decimal place (e.g., 3.5).

If you click a standard, the Standard Score Trend dialog box opens. This displays line chart

depicting the student's progress for the standard. The vertical line represents the rubric scores as established by the district, and the horizontal line represents the assignments that are associated with the selected standard. The data is display only.

Click **Close** to close the dialog box.

The **Score** column displays the student's overall score for the assignment for all cycles in the semester. The score is either the higher score or the average (**Avg** column) and the power law average (**PL** column) or the override score if it exists. The override score is always displayed if it exists in any cycle in the semester.

The **PL** (power law) column displays the student's average for the assignment based on the power law formula, which is described later in this guide.

The **Avg**
