Posting Codes

Attendance > Maintenance > District > Posting Codes

This page allows you to maintain a list of district-level attendance posting codes that are used at all campuses when a student is absent from school to indicate the reason for the student's absence.

Any changes or deletions to the table should be made before the start of the school year.

Update data:

Existing attendance posting codes are displayed in order by posting code.

Click **+Add**, or press ALT+1. A blank row is added to the grid.

NOTE: When using ALT+1 to add a row, you must press the 1 key on the keyboard, not the 1 key on the numeric keypad.

Field	Description
Posting Code	Type the one-character code for the attendance posting that does not already exist in the table. This is the district-determined code that will be used to record attendance for the corresponding **Absence Type**. Code P is used to delete an absence that was posted in error. The **Absence Type** for code P must be P (*present*).
Description	Type a description for the code, up to 29 characters.
ADA Code	Select if the new code should be considered an absence when determining Average Daily Attendance (ADA). The field must be selected if **Absence Type** is A or U.
Prepost	Select if the code can be posted to the student record prior to the date of the absence. Preposting can be used when the school is aware of the absence in advance (e.g., for a field trip).
Absence Type	Type the one-character absence type code to be displayed on the report card. Or, click ⋮ to select the code. **Absence Types** are a pre-set list of available attendance/tardy types. The district can use the **Posting Code** field to specify a district code for each attendance type. The posting code table serves as a crosswalk allowing ASCENDER attendance reports to display the district codes for each absence/tardy type.

Click **Save**.

To update data for a posting code, type over the existing data and save.

You cannot update a code. To change a code, you must delete and re-enter the code and description.

9. To delete an attendance posting code, click trashcan icon. The row is shaded red to indicate that it will be deleted when the record is saved.

● You can select multiple rows to be deleted at the same time.

● Click Save. A message is displayed asking you to confirm that you want to delete the row.

Click Yes to continue. The selected rows are deleted. Otherwise, click No.

Note: You can save changes and delete records in the same step (i.e., the changes are all committed when the record is saved). If any changes do not pass validation (i.e., cannot be deleted or have validation errors), none of the changes are saved.

10. Click Print to generate a report of the district posting codes. Review, save, print, and close the report.
