This report provides the number of withdrawal records and average daily attendance (ADA) absences for the ADA period. An error report is produced if errors occur. **Any absences with an asterisk on the error report are automatically deleted from the attendance records.**

NOTE: Absences are only deleted from the ADA period on the first day of school (or a student's entry/reentry date) if the absence is either an ADA absence type or a non-ADA absence type other than J (ISS/AEP) or N (not in class (present)).

To view the correct attendance information by year, run the [District Yearly Count](#) utility.
