# SAT2200 - Membership Summary

## Attendance > Reports > Attendance Reports > Membership > SAT2200 - Membership Summary

This report lists the number of first day enrollments, year-to-date students, year-to-date withdrawals, and total membership for each grade level for the current year. The count of ineligible students (i.e., students with eligibility code 4 or 5, year-to-date students with eligibility code 0, and withdrawn students with eligibility code 0) is included.

- **Summary Report:** The Membership Summary is a duration summary that lists counts of the number of students with eligibility codes 1-6 for each grade level that met different criteria at any time during the period from the beginning of school until the end of the requested cycle. While students may move between eligibility codes, this report (with the exception of the First Day Enrolls) only provides counts based on their eligibility codes as of the last day of the reported cycle. The summary lists counts students .

**NOTE:** A duration report is one which lists counts of students who met criteria during a cycle, but did not necessarily meet that criteria during the same portion of a cycle. Compare this to snapshot reports like SAT0400 or SAT1000, which provide counts of students on the day being reported.

- **Detail Report:** The detail report groups students by categories (first day enrollments, year-to-date students, etc.) to substantiate counts in the summary report. The detail report shows membership information including active/inactive status, entry date, withdrawal date, and eligibility code as of the end of the selected cycle (or at the time of withdrawal), documenting students who attended at any time during the cycle. A grade level total is also displayed.

### Report field descriptions

<b>Grade</b>	For the First Day Enrolls criteria, the grade level on the first day is displayed. For all other criteria, the grade level at the end of the requested cycle is displayed.
<b>Status</b>	The field indicates whether the student is active or inactive at this campus and track.
<b>Entry</b>	The date on which the student qualified for inclusion in this report is displayed (either the date of entry to the campus or track, or the date the student's exclusion code was changed).
<b>Withdraw</b>	The date on which the student no longer qualifies for this report is displayed (either the date of withdraw from the campus or the date a status change updated the exclusion code or track).  Withdrawals are only listed if they occurred before or during the cycle being reported. A 33 status code is treated as a withdrawal if it removes a student from the report due to a change in track or exclusion code. Withdrawal records list the eligibility code on the day of withdrawal (not the end of the cycle, where the student may be in an alternate track).

<b>WD Rsn</b>	The withdrawal reason code is displayed if applicable.  The detailed report only lists students with 33 withdrawal codes when a status change (track or exclusion) removes the student from the listings criteria.
<b>Elig Cd</b>	The student's eligibility code is displayed.
