***Discipline > Reports > Discipline > SDS1400 - Offenses 'Reported By' Summary Report***

The report displays the percentage of offenses reported by the persons who reported incidents. The percentage displayed is based on the number of offenses reported for an offense code by a particular person/group divided by the total number of offenses reported for the whole campus.

The report is grouped by Reported By ID. The **Reported By** field on the incident record can be blank, and all offenses reported without a Reported By person/group print on the "Reported By = blank" page.
