

Update data: (FOR HOST AND NON-HOST CAMPUSES)

Table of Contents

Select the course section that will be reported and the instructor who will be participating in the Additional Days Program.

Grade Reporting > Maintenance > Master Schedule > Campus Schedule > Section

NOTE: When selecting a **Role ID** other than 047 and 087, you will not be able to save changes and will receive an error message.

NOTE: This applies when the **Additional Days School Year (ADSY) Program** is held at a **campus other than the enrolled campus**. Individual Course numbers will need to be created and crosswalked on **Grade Reporting > Maintenance > Tables > TSDS Crosswalks** when the **ADSY Program** is not held at the student's enrolled campus. These courses/course sections/instructors will be created at both the enrolled and Host campus.

Select whether or not this campus will have additional school days in the year by checking or unchecking **Additional Days Program**. This will give access to ADSY Options and ADSY Attendance on **Attendance > Maintenance > Addtnl Days Program**.

Select the course section that will be reported and the instructor who will be participating in the Additional Days Program.

NOTE: At least one ADSY student must be enrolled in the course section on Grade Reporting > Maintenance > Student > Individual Maintenance in order for the Staff Classroom responsibility record to extract to State Reporting.

Interchange: MasterSchedule

Complex Type: SectionExtension

Description: Represents a setting in which organized instruction of course content is provided to one or more students for a given period of time. This complex type lists the current year courses taken by a student or taught by a teacher. A course may be offered to more than one class/section. Instruction, provided by one or more teachers or other staff members, may be delivered in person or via a different medium.

The following element from the *SectionExtension* complex type is included in Submission 4:

- COURSE-SEQUENCE-CODE **Crs Seq** (E0948) (Code table: C135) is the order in which the course was scheduled. **This should only be used if the course, or part of the course is taught out of sequence, such as a credit recovery or self-paced course** (e.g., the second semester of English I is taught during the first semester). Leave blank if the course is not taught out of sequence. Verify all course sequence codes in the district course and campus section records in the master schedule. For Submission 4, verify course sequence for all dual-credit courses offered during summer months.

Interchange: StaffAssociationExtension

Complex Type: StaffResponsibilitiesExtension

Description: Represents staff associated with their responsibilities within the LEA and/or school.

The following elements from the *StaffResponsibilitiesExtension* complex type is included in Submission 4:

- ROLE-ID **Role ID** (E0721) (Code table: C021) identifies the capacity in which a person serves. Examples of roles are teacher, art therapist, and superintendent.
- SERVICE-ID **Svc ID** (E0724) (Code table: C022) refers to the services supplied by staff. If the SERVICE-ID listed in Code Table C022 ends in XXX, then any value will be allowed in character positions 6-8. The values in character positions 6-8 will be changed to XXX at TEA during data

loading.

- CLASS-ID-NUMBER (E1056) identifies a unique course section, that is unique for a particular school year, Campus, and SERVICE-ID. The CLASS-ID-NUMBER may be any 14 character district defined identifier comprised of letters and/or numbers.

- POPULATION-SERVED-CODE **Pop Srvd** (E0747) (Code table: C030) identifies the student population for which a service has been designed or is intended. It does not necessarily identify the program eligibility of the students who receive the service. The correct code is determined by the population for which the service was designed, not by the student population that receives a service. If two or more populations are being served, only one record should be reported, using the population for which the service was designed. If an intent cannot be determined, use code 01, regular students.

- NUMBER-STUDENTS-IN-CLASS (E0170) indicates the number of students in membership in the class.

- CLASS-TYPE-CODE **Class Type** (E1055) (Code table: C179) the type of class providing instruction to students in particular class settings.

- ADDITIONAL-DAYS-PROGRAM-TEACHER-INDICATOR-CODE **ADSY** (E1673) (Code table: C088) indicates if a teacher is teaching students eligible for the additional days school year program as described in TEC Sec. 48.0051.

- Type the new 2-digit track number in the **Track** field. This number cannot be a regular attendance track.
- Enter a program description for the track in the **Description** field.

Enter a number of minutes in the **Instructional Minutes** field.

The screenshot shows a form with the following elements:

- A **Save** button in the top left corner.
- A **Track:** label followed by a text input field.
- A **Description:** label followed by a larger text input field.
- A **Cancel** button in the top right corner.
- An **Instructional Minutes:** label followed by a text input field containing the number **0**.

Click **Save** or click **Cancel** to return.

| | |
|------------------------------|--|
| Track | (Required) Select the attendance track. |
| Description | Type a description of the track, up to 50 characters. This description will appear in the Track field drop-down list on most Attendance > Maintenance > Addtln Days Program pages. |
| Instructional Minutes | (Required) The minimum number of minutes that can be entered is 120. When the Instructional Minutes are entered in this field and saved, the daily Instructional Minutes in the table will populate and be editable. |

Enter the dates of the program in the **Calendar Date** fields up to 30 days.

- ADSY days can be on any day throughout the year as long as the day remains non-compulsory and does not take place on a required instructional day.
- ADSY days can be held during the summer prior to or before a school year (May - August), on designated intersessional days throughout the year, or on weekends.
- Dates may not be duplicated.

A school district cannot enter 2022-2023 school year ADSY information when the current year displays 2021-2022. The district must first run Annual Student Data Rollover (ASDR) so that the current school year displays 2022-2023, and then they can enter 2022-2023 ADSY data into the system.
