Update data:

The student's existing local program entry/withdrawal/reentry records are displayed.

Click **+ Add** to add a record.

A blank row is added to the grid.

- Enter a program date in the **Entry Date** field.
- Enter ADP in the **Local Program** field or select it from the drop-down menu.
- Enter a 2-digit code in the **Code 2** field.

NOTE: The 2-digit code should match the 2-digit ADP track number in order for the student to be displayed on the ADSY Attendance.

- This field is required for the Additional Days School Year Program.
- The number in this field must be two digits.

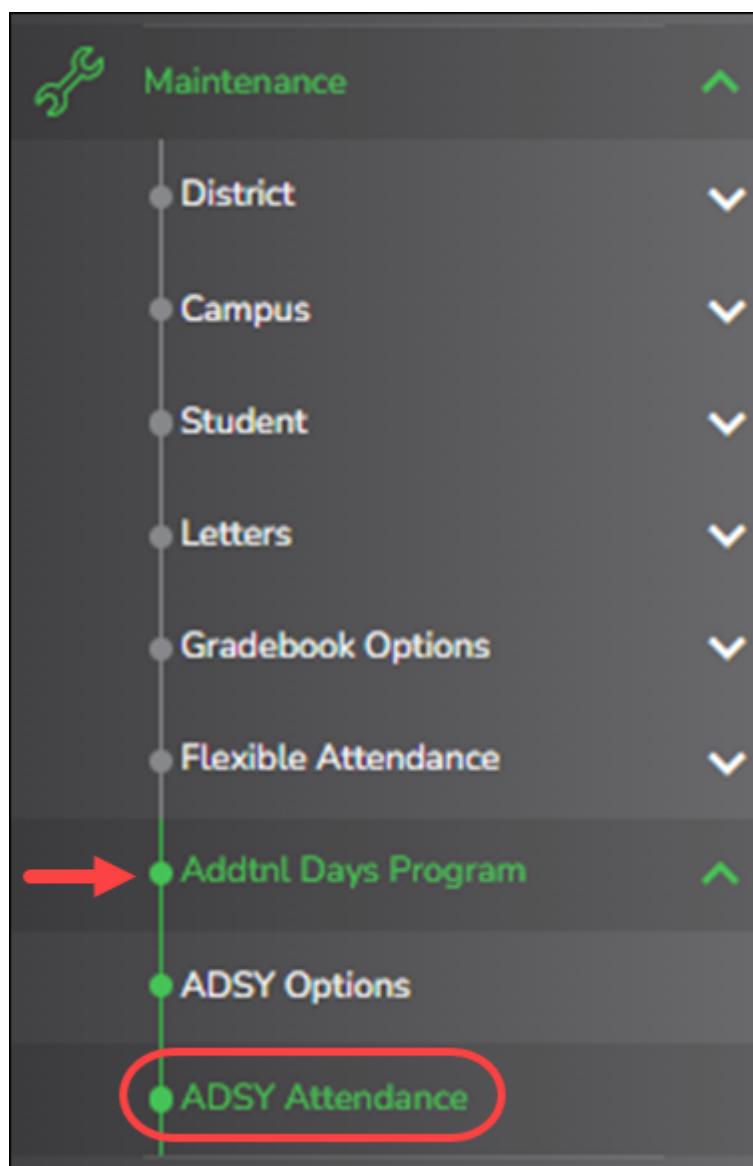

Click **Save**.

NOTE: This applies when the Additional Days School Year (ADSY) Program is held at a

campus other than the enrolled campus.

When the client enters a 3-digit ADSY Host Campus in the **Code 3** field, it will replace the Campus ID number for the ASDY Basic Attendance and ASDY Spec Ed Attendance. It will crosswalk the Campus ID from the enrolled campus to the campus where the student completed the ASDY Program.

Per TWEDS: Report the CAMPUS-ID-OF-ENROLLMENT as the campus on which the student attended the Additional Days School Year (ADSY) Program.

Attendance > Maintenance > Addtnl Days Program > ASDY Attendance

This section allows you to retrieve students who are enrolled in the Additional Days Program.

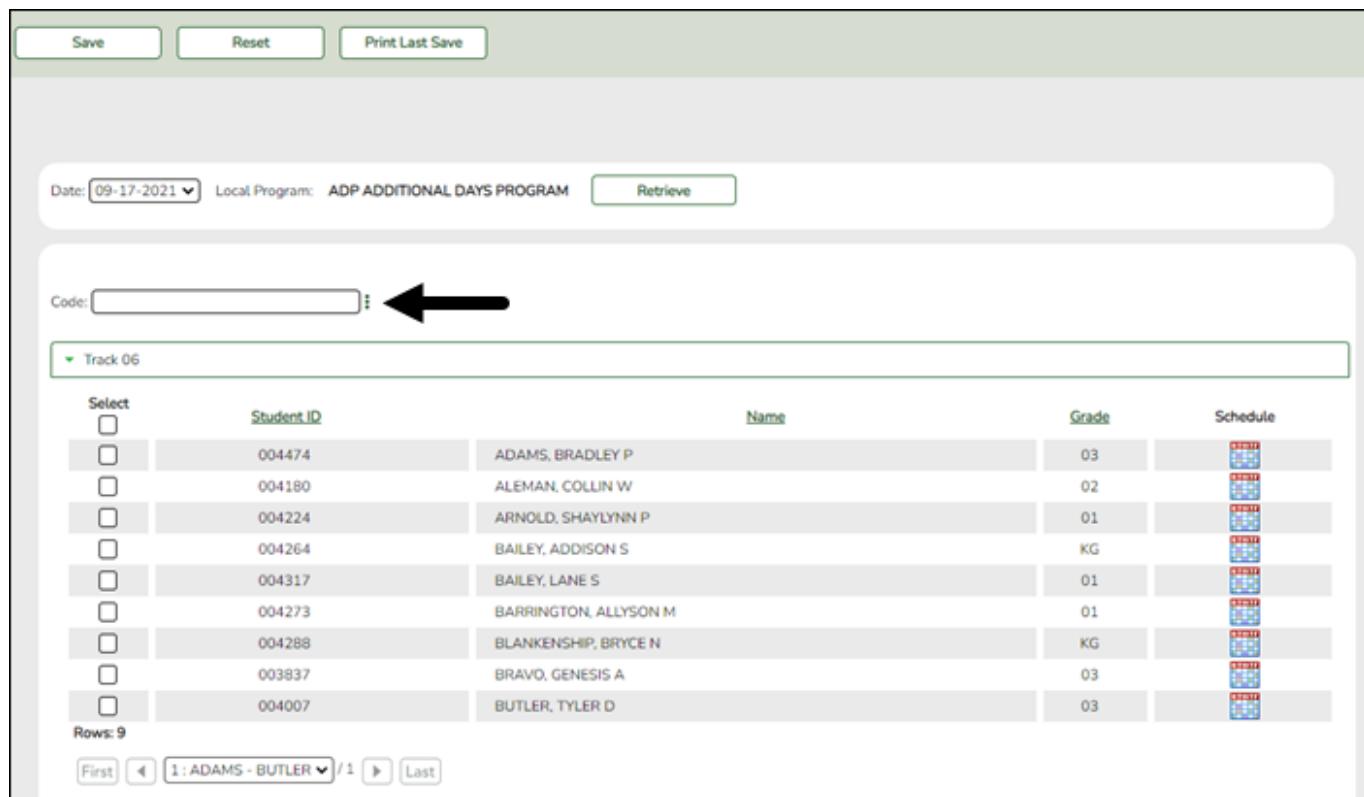

All students in the group must be absent on the same date and enrolled in the same local program, but they may be on different attendance tracks. You can also overwrite existing posted attendance

(an Overwrite Warning pop-up window will be displayed).

NOTE: Students are enrolled in a local program on [Registration > Maintenance > Student Enrollment > Local Programs](#). The Program Title must be Additional Days Program in order for the students to retrieve the proper local program code.

During the setup process on [Registration > Maintenance > District Profile > Local Program Codes](#), the **Program Title** must be *Additional Days Program* in order for the screen to retrieve the proper local program code.

For Extended School Year Reporting purposes, this local program must be designated for Additional Days School Year in [State Reporting > Options](#).

The screenshot shows a software interface for retrieving students. At the top, there are buttons for 'Save', 'Reset', and 'Print Last Save'. Below these are fields for 'Date' (set to 09-17-2021) and 'Local Program' (set to ADP ADDITIONAL DAYS PROGRAM), with a 'Retrieve' button. A large text input field labeled 'Code:' is followed by a colon and a double-headed arrow, indicating where to enter the local program code. Below this is a table titled 'Track 06' showing student data. The table has columns for 'Select' (checkboxes), 'Student ID', 'Name', 'Grade', and 'Schedule'. The data includes:

Select	Student ID	Name	Grade	Schedule

To Retrieve a Student:

- Select a date from the **Date** drop-down menu. Click **Retrieve**.

- You can re-sort the grid by clicking an underlined column heading.
- If there are multiple pages, page through the list.

NOTE: Students are grouped by track. By default, the lowest track is expanded to display students on that track. Click other tracks to expand/hide the list of students.
