

## **attendance\_posting\_code\_absence\_type**

# Table of Contents

Type the one-character absence type code to be displayed on the report card. Or, click  to [select the code](#).

**Absence Types** are a pre-set list of available attendance/tardy types. The district can use the **Posting Code** field to specify a district code for each attendance type. The posting code table serves as a crosswalk allowing ASCENDER attendance reports to display the district codes for each absence/tardy type.
