A pop-up window opens which displays a list of the last 10 times attendance was posted from any attendance posting tab, including the user ID of staff who posted attendance, and the date-time stamp indicating when the attendance was posted. The list is retained even if you exit the page or application.

The posted attendance for each save can be viewed and saved as a PDF. Click **View** to open the report.

The report opens in a new window and includes the student ID, name, grade level, absence/tardy date, period, course (if applicable), district posting code and description.

The report heading indicates the tab on which attendance was posted. If multiple tabs were used in one save, the report includes a separate page for each tab.

Click **Exit** to close the report window.

Errors The button appears if errors are encountered on any attendance posting tab, and the Student Posting Errors pop-up window opens automatically which lists the tab name containing the error, and the error message.

Click the tab name to go to the tab where the error exists. The field(s) containing errors are highlighted red.

The Student Posting Errors pop-up window is updated as errors are corrected.

If all errors are corrected, the Student Posting Errors pop-up window and **Errors** button are no longer displayed.

If you close the Student Posting Errors pop-up window and errors still exist, click the **Errors** button to re-open the pop-up window.
