

grad_plan_pgp_industry_credentials_certification

Table of Contents

Indicate a credential or certification earned by the student and the date the student completed it.

The list is maintained in the **Origin** field on Maintenance > District Tables > Credentials or Certification.

• If the credential or certification is internationally or nationally recognized and **Origin** on Maintenance > District > Tables > Credentials or Certification is *International* or *National*, the credential or certification will display the district-defined code, selected PEIMS code, and then I (for International) or N (for National) in parentheses followed by the district-defined description. The international or national credential or certifications will be displayed on the Performance Acknowledgement tab.

• If **Origin** is blank on Maintenance > District > Tables > Credentials or Certification, the credential or certification will display the district-defined code followed by the district-defined description. The credential or certifications with no PEIMS code will not be displayed on the Performance Acknowledgement tab.

Date	Type the date of completion, or click to select the date from a calendar.
