

# **grad\_plan\_pgp\_industry\_credentials\_certification**

# Table of Contents

---

Indicate a credential or certification earned by the student and the date the student completed it.

The list is maintained in the **Origin** field on [Maintenance > District Tables > Credentials or Certification](#).

- If the credential or certification is internationally or nationally recognized and **Origin** on [Maintenance > District > Tables > Credentials or Certification](#) is *International* or *National*, the credential or certification will display the district-defined code, selected PEIMS code, and then I (for International) or N (for National) in parentheses followed by the district-defined description. The international or national credential or certifications will be displayed on the [Performance Acknowledgement](#) tab.
- If **Origin** is blank on [Maintenance > District > Tables > Credentials or Certification](#), the credential or certification will display the district-defined code followed by the district-defined description. The credential or certifications with no PEIMS code will not be displayed on the [Performance Acknowledgement](#) tab.

This information is used on [Maintenance > Student > Individual Maintenance > PGP](#) and prints on the Student Personal Graduation Plan ([SGP1000](#)) and AAR Multi-Year ([SGR2047](#)) reports.
