# grad_plan_requirements_courses

ii

# Table of Contents

Any existing course requirements for the selected graduation plan are displayed.

- The local course number, course title, and service ID are displayed for each course.
- The list can be re-sorted.

  You can re-sort the grid by clicking on an underlined column heading. It will sort in ascending order. Click it again to sort in descending order.

  A triangle next to the column heading indicates the column by which the grid is currently sorted and whether it is sorted in ascending ☒ or descending ☒ order.

| Credit | The number of credits that will be awarded to the student who successfully completes the course is displayed. |
|---|---|
| Meets State Req | Select if the course meets the state requirements for the subject for the plan. A course may meet the requirements even if it is not a default course. For example, English I may be the default course for 9th grade; however, English I - Pre-AP also meets the requirements for the plan. |
| Default | Select if the course is a default course for the grade level (e.g., English I for 9th grade). The default course will automatically be assigned to the student when the graduation plan is initially assigned, but it can be adjusted as needed.<br><br>**NOTE:** You cannot have more total **Default** courses than the **Total *Subject* Credit Required** field indicates. |
| Grade Level | Select the high-school grade level for which you are establishing course and credit requirements within the subject area.<br>The grade level is not required for elective courses; it is required for all other courses. |
| Total *Subject* Default Credits | A tally of the credits for all courses marked **Default** for the subject is displayed at the bottom of the grid.<br><br>The number may not match the number of credits required for the subject.<br><br>The total is for the subject, not the grade level. |
| trash can | |

```
From the Grad Plan Courses (right) grid, you can remove any courses from the
course requirements for the graduation plan and grade level. Click trashcan
icon to delete a row.
```

● The row is shaded red to indicate that it will be deleted when you click Save.

● You can select multiple rows for deletion. The selected rows are shaded red.

Notes:

● If you attempt to remove a course that has been assigned to a student's graduation plan, a message is displayed indicating that the course must be removed from the student's plan before it can be deleted from the graduation plan requirements.

● You can also use the Grad Plan Course Change utility to delete the course from the district and any associated student graduation plans.
