

# grade\_reporting\_gradebook\_admin\_staff\_id

# Table of Contents

Type the employee's social security number or employee number, depending on the district's setting for **Student Applications Staff ID** on [Registration > Maintenance > District Profile > District Maintenance > Control Info](#).

If the employee number is used at the district, you can click  to [select a principal/counselor or instructor](#).

The administrative user must have a record in the campus principal/counselor table, the campus instructor table, or the employee demographic table (employee or non-employee). The user's information is verified against the data in one of the tables.

**NOTE:** A staff ID can be set up as a district administrator or a campus administrator, but not both. However, the same staff ID with a unique user ID can also be used for creating an instructor login.

The **Status** field is displayed in place of the **Staff ID** field (below the grid) once the record is saved, and it is set to *Reset* by default. Click the **Change Status** button to change the status. The options are as follows:

*Inactive* - Prevent a user from logging on to TeacherPortal.

*Reset* - Reset a user's account allowing him to register using the **New User** link on the TeacherPortal Login page.
