

# Vision

# Table of Contents

<b>Default Values</b>	Select the default values for the screening:	
	<b>Select Page</b>	Select to apply the default values to all students displayed on the page. Do not select all students unless they <i>all</i> have the same exam type, pass/fail/rescreen, glasses, and eye results settings.
	<b>Exam Type</b>	Select the type of vision test administered.
	<b>Pass/Fail/Rescreen</b>	Select the overall result of the vision test.
	<b>Glasses</b>	Select if all students in the group were wearing glasses when tested.
	<b>Both Right Left</b>	Type the three-digit number indicating the test results for both eyes, the right eye, and the left eye.
<b>Screener</b>	Type the screener's first name (up to 9 characters), middle initial, and last name (up to 14 characters).	

If you did *not* select **Select Page**, select the individual students who meet the criteria specified under **Default Values**.

As you select students, the **Default Values** are displayed for the student in the grid.

If there are multiple pages of students, you cannot save multiple changes at one time. You must save the page before going to the next page.

Click **Save** to save the information for the students displayed on the page.

- The selected students remain displayed on the page, but they appear dimmed and cannot be selected.
- You can select different default values for the remaining students.

<b>Show Already Screened</b>	To re-display screened students (i.e., students for whom data was previously entered and saved), select <b>Show Already Screened</b> and click <b>Retrieve</b> . The students are displayed, but the data cannot be updated.
------------------------------	--

**NOTE:** To modify data for individual students who were already screened, use [Maintenance > Student Health > Screening - Vision](#).
