# Emergency

***Health > Maintenance > Student Health > Emergency***

This tab allows you to view and update a student's emergency information, such as emergency medical contacts (e.g., doctor and dentist) and medical alerts. You can also quickly print an emergency profile report for the student in the event of a medical emergency.

Only medical contacts can be updated on this page. Non-medical contacts (e.g., parents/guardians) are displayed on this page but are maintained in Registration.

This tab is not enabled until you retrieve a student.
