Medical Condition

Health > Maintenance > Tables > Medical Condition

This tab allows you to maintain a list of district-defined medical condition codes. User-defined codes begin with UD; only user-defined codes can be added or updated. All other codes are system codes that cannot be changed.

The data in the table populates the **Medical Condition** field on [Maintenance > Student Health > Medical Condition](#).

Update data:

Existing medical condition codes are listed in order by code. The system codes are listed first, and user-defined codes are listed next.

Click **+Add** to add a medical condition.

A pop-up window opens.

Code	Type the five-character code for the medical condition. The code must begin with UD followed by three characters (e.g., UDABC).
Description	Type a description for the code, up to 80 characters.
level	Select the security level for the medical condition. The more confidential the condition, the higher the security level. For example, select <i>Level 3</i> for a highly confidential condition.

Click **OK** to close the window.

The new medical condition is displayed in the grid.

Click **Save**.

 Edit a description.	Update the fields as needed, click OK , and then click Save . The changes are displayed in the grid. Or, click Cancel to close the window without making changes.
