TxEIS Registration: Enroll a New Student from txConnect

As students are enrolled in the district via the New Student Enrollment wizard in txConnect, administrators must review and accept each enrollment request, complete the student's enrollment and assign a student ID, and provide each student's parent with a Student Portal ID. These steps must be completed in TxEIS Registration.

Prerequisites:

- The steps in this guide must be completed in ASCENDER Registration by a user who has access to those pages. Basic knowledge of the ASCENDER Registration application is assumed.
- Students must be enrolled according to the process described in the [ASCENDER ParentPortal Parent: New Student Enrollment guide](#).

1. [Review enrollment request and assign ID.](#)

[Registration](#) > [Maintenance](#) > [Online Registration](#) > [New Student Enrollment](#)

This page allows you to review pending new student enrollment requests received from ASCENDER ParentPortal.

As students are enrolled online in ASCENDER ParentPortal, an administrator must review each enrollment request and create a record for each registered student.

A list of new student enrollment requests received from ASCENDER ParentPortal is displayed.

- [The list can be re-sorted.](#)

You can re-sort the grid by clicking on an underlined column heading. It will sort in ascending order. Click it again to sort in descending order.

A triangle next to the column heading indicates the column by which the grid is currently sorted and whether it is sorted in ascending  or descending  order.

IMPORTANT: Before accepting new students, campus staff should verify that the student has not been enrolled before. Go to the [Student Enrollment](#) page and click **Hist Directory**

to access the Historical Directory, and search for the student.

It is possible that a student was enrolled with a different ID before. For example, the student may have been enrolled previously with a state-assigned ID, but has now been enrolled with a social security number. Check each student carefully to avoid creating duplicate enrollment records.

To search for a new student enrollment record, do one of the following:

Search by Name	Type the student's first and last name.
Search by Key	Type the student's key. This number is generated by ASCENDER ParentPortal when the parent proceeds through the new student enrollment steps.

As you begin typing the name or key, a drop-down list displays records that match the characters you have typed. From the drop-down list you can select the record.

 Click  to view the details of a pending enrollment request. The student's enrollment record is displayed on the [Register Student](#) page.

[Registration > Maintenance > Online Registration > New Student Enrollment > Register Student](#)

This page allows you to enroll a new student using the information that was entered by the student's parent/guardian in ASCENDER ParentPortal.

This initial data serves as the basis for a complete student record.

NOTE: Verify whether **Auto Assign Student ID** is set to automatic or manual assignment of student ID numbers on [Maintenance > District Profile > District Maintenance > Control Info](#).

What Happens Next?

With a valid Student Portal ID, parents can add a student to their ParentPortal account.

If the district has enabled parents to complete online registration and/or update a student's current year data, a parent can complete online registration and make changes to his student's data using forms available via ParentPortal.

- See the [ASCENDER ParentPortal Parent: Registration and Data updates](#) guide.

As parents update data for their students, an administrator must review and approve each change.

- See the [ASCENDER Registration: Approve Student Registration & Data Changes and Monitor Forms](#) guide.
