Or, click **Directory** to to [select an existing block](#).

Street Directory Search

This directory is used to search for a street segment and retrieve the segment to the page from which you accessed the directory.

Search for a street segment:

Enter data in one or more of the following fields.

Direction	If applicable, type the compass direction associated with a street name, up to two characters (e.g., S, SW, NE).
Street Name	(Required) Type the street name, up to 19 characters. As you begin typing, the a drop-down list displays streets that begin with the characters you have typed. From the drop-down list you can select the street. Only the following characters are allowed: alpha, numeric, space, hyphen, period, #, /, and apostrophe.
From/To	Type the lowest and highest street numbers in the street segment, up to five digits each. These fields are disabled if Selection Begins With is selected.
E/O/B	Indicate whether the segment includes only the odd-numbered side of the street (O), only the even-numbered side of the street (E), or both (B).

Select **Selection Begins With** to retrieve all streets beginning with those that match the characters entered.

If not selected, only matching street names are retrieved.

NOTE: If selected, the **From/To** street number fields are disabled.

Click **Search**.

The street segments that meet the criteria entered are displayed.

NOTE: Any time you select or clear the **Selection Begins With** check box, you must click **Search**.

Click the street name for the segment you want to retrieve.

The directory closes, and the street segment information is displayed on the page from which you accessed the directory.

Click **Cancel** to return to the previous page without selecting a street segment.

Direction	If applicable, type the compass direction associated with a street name. Valid values are N, NE, NW, S, SE, SW, E, W, or blank.
Street Name	(Required) Type the street name, up to 60 characters. As you begin typing, the a drop-down list displays streets that begin with the characters you have typed. From the drop-down list you can select the street. Only the following characters are allowed: alpha, numeric, space, hyphen, period, #, /, and apostrophe.
From/To	(Required) Type the from/to street numbers for the range included within the particular block or segment. Use six digits with leading zeroes. Only the following characters are allowed: alpha, numeric, space, hyphen, period, and #.
O/E/B	(Required) Indicate whether the block includes only the even-numbered side of the street (E), only the odd-numbered side of the street (O), or both (B).

Click **Retrieve**.

- If the block already exists, the information is displayed and can be updated.
- If the block does not already exist, blank fields are displayed allowing you to enter the information.

Use the **CY Attendance Zones** tab to maintain data for the current school year.

Or, click **NY Attendance Zones** to maintain data for the next school year.

City	(Required) Type the city name, up to 17 characters. Only the following characters are allowed: alpha, space, hyphen, and apostrophe.
State	(Required) Type the two-character state abbreviation.
Zip	(Required, first five only) Type the five-digit zip code, followed by the four-digit delivery route code.
Neighborhood	Type the code indicating the neighborhood in which the block exists, up to four characters. This code is optional and district defined.
County Code	(Required) Type the three-digit county portion of the county-district number assigned by the TEA. For example, if the county-district code is 123456, type 123.
Census Tract	Type the six-digit code for the tract in which the block lies, as assigned by the US Census Bureau.
Precinct Code	Type the four-digit voting precinct code for this block.
Federal Property Code	Type the one-character code indicating the federal government ownership status of the property at this address. This code is optional and district defined.

Click **+Add** to add a campus for the specified block.

A row is added to the grid.

Enter a row for each campus serving students who live on the specified block.

NOTE: Grade levels cannot overlap for any campuses listed.

Campus	Type the three-digit campus ID for students living in the specified block.
Transportation Eligibility	Select the current year bus eligibility for students living in this street segment.
From/Thru Grade Level	(Display only) The range of grade levels at the specified campus is displayed once the record is added and cannot be changed from this page. These grade levels are set in Low/High Grade Level on Registration > Maintenance > Campus Profile > Campus Information Maintenance > Control Info .
Capped To	(Display only) The campus where students must be enrolled after the Capped To Date is reached is displayed. This is specified in the Capped to Campus field on Registration > Maintenance > Campus Profile > Campus Information Maintenance > Control Info . This field is only applicable on the CY Attendance Zones tab.

Date Capped	(Display only) If the campus has reached its enrollment capacity, the cutoff date is displayed. This is specified in the Capped Date field on Registration > Maintenance > Campus Profile > Campus Information Maintenance > Control Info . This field is only applicable on the CY Attendance Zones tab.
	Delete a row. 1. Click  to delete a row. The row is shaded red to indicate that it will be deleted when the record is saved. You can select multiple rows to be deleted at the same time. 2. Click Save . You are prompted to confirm that you want to delete the row. Click Yes to continue. Otherwise, click No . You can save edits and delete records in the same step (i.e., the changes are all committed when the record is saved).

NOTE: A campus cannot be deleted if there are any active students at that campus whose **Physical Address** is part of the street segment.

Click **Save**.

If errors are encountered, the **Errors** button is displayed. Click **Errors** to view and correct any errors.

NOTE:

- The **Save** button is disabled until you retrieve a valid address.
- For a new entry, the **Save** button is enabled when you click **+Add** to add a campus.
