

registration_historical_directory

Table of Contents

Open the Historical Directory which is used to search students who were enrolled in a prior school year and select a student for re-enrollment.

Enter data in one or more of the following fields.

Field	Description
Last Name	Type all or part of the student's last name to retrieve students whose last name *begins with* the letters you have typed.
First Name	Type all or part of the student's first name to retrieve students whose first name *begins with* the letters you have typed.
Stu ID	Type all or part of the student's ID to retrieve students whose ID *begins with* the characters you typed.
Texas Unique Stu ID	Type all or part of the student's Texas Unique Student ID to retrieve students whose ID *begins with* the characters you typed. If the student does not have a Unique ID, click TSDS Unique ID button to connect to the TSDS Unique ID Web Service and obtain an ID. Your LEA must have the appropriate credentials through Texas Education Agency Login (TEAL) before this functionality can be used. Review the Assign a TSDS Unique ID guide for additional information.
SSN	Type all or part of the student's social security number to retrieve students whose SSN *begins with* the characters you typed.

Click **Search**. The students who meet the criteria entered are displayed. The records are sorted ascending by last name and first name, and then descending by year.

- If more students are retrieved than can be displayed on one page, you can page through the list.

- The list can be re-sorted.

  You can re-sort the grid by clicking on an underlined column heading. It will sort in ascending order. Click it again to sort in descending order.

  A triangle next to the column heading indicates the column by which the grid is currently sorted and whether it is sorted in ascending or descending order.

- All except the SSN field are autosuggestion fields. As you begin typing, a drop-down list displays students whose data begins with the numbers or characters you have typed. From the drop-down list you can select the student.

The list include enrollment records from the current year and previous years.

- A blue link indicates a student who is not currently enrolled and can be re-enrolled.
- A black link indicates a student who is currently enrolled; these students cannot be re-enrolled.

When you locate the student you want to retrieve, click either the student ID or school year. **You can only click a row for the most recent year the student was enrolled**; records for earlier school years are not hyperlinked.

- If the student was last enrolled in a previous school year, a warning message prompts you to confirm that you want to re-enroll the student in the current year. Click **Yes**, and the Student Enrollment page opens allowing you re-enroll that student.
- If the student's latest enrollment is in the current school year, a message indicates that the student is currently enrolled. Click **OK**.

Click **Cancel** to return to the previous page without selecting a student.
