Cohort

The cohort year is the student's **Dt Entry 9th Grd** plus four years. A cohort is a group of students tracked from the beginning of a school year through the fall after the expected graduation date, regardless of final status. The cohort year is the ending school year when the student is expected to graduate.

The field is automatically populated when you enter the student's **Dt Entry 9th Grd**, press TAB, and save.

If the month entered is between July and December, add 4 years to the Cohort year, otherwise add 3 years.

Once updated, the field becomes read-only. The student's cohort year should not be changed unless it was entered in error. To update the cohort year, clear the student's **Dt Entry 9th Grd** and save. Then, reenter the **Dt Entry 9th Grd** field, press TAB, and save.
