

registration_student_dual_language_immersion

Table of Contents

This data is reported through the Texas Record Exchange (TREx). Per SB671, to successfully complete a dual language immersion program, a student must participate in a dual language immersion program for at least five consecutive school years, achieve high levels of academic competence as demonstrated by performance of meets or masters grade level on the STAAR in English or Spanish as applicable, and achieve proficiency in both English and a language other than English as demonstrated by scores of proficient or higher in the reading and speaking domains on language proficiency or achievement tests in both languages.

Year-Language 01-05	For each year, indicate the language other than English (LOTE) in which the student is receiving instruction in a dual language immersion program. If **Year 05 Language** has a value, **Completion Year** is required.
Assessment Date	Enter the date on which the student: • Achieved high levels of academic competence as demonstrated by performance of meets or masters grade level on the STAAR in English or Spanish, as applicable; and • Achieved proficiency in both English and a LOTE as demonstrated by scores of proficient or higher in the reading and speaking domains on language proficiency or achievement tests in both languages. Use the MMDDYYYY format. Or, click to select the date from a calendar.
Completion Year	Type the four-digit year in which the student successfully completed the dual language immersion program. The field is required if all five **Year-Language** fields have values. The field must be blank if **Year 05 Language** is blank.
